

# **Master Econometrics Statistics**

**Dual degree program with  
University of Kent**

Dear candidate,

Aix-Marseille School of Economics promotes the idea of students acquiring international experience throughout their academic journey. This can be achieved through various avenues, including participating in a dual degree program. The advantages of such international experiences are indisputable.

One of the key benefits is the opportunity to gain fresh perspectives. Experiencing education and life in a different country allows students to broaden their worldview, fostering a more comprehensive understanding of global issues and diverse cultural practices. This exposure to new ideas contributes significantly to personal and intellectual growth.

Moreover, engaging with a different academic culture can be intellectually enriching. Experiencing diverse teaching methods, research approaches, and academic environments can enhance a student's skill set and provide a well-rounded education. It encourages adaptability and flexibility, qualities that are increasingly valuable in our interconnected and rapidly changing world.

Beyond the academic realm, international experiences contribute to the expansion of personal and professional networks. Interacting with individuals from diverse backgrounds not only enhances cultural competence but also creates connections that can be valuable in both personal and professional spheres. Building a global network can open doors to future collaborations, career opportunities, and a deeper understanding of the interconnectedness of the academic and professional landscape.

In essence, Aix-Marseille School of Economics recognizes the multifaceted advantages of international experiences for students.

Best regards,

**Karine Gente**

Professor of Economics

Vice Dean International Relations

## ● What is a dual degree?

A dual degree is a distinctive dual program that offers you the opportunity to:

- Study at two prestigious universities.
- Obtain two diplomas.
- Cultivate a unique differentiator for your CV.
- Spend the first academic year abroad and the second year at AMSE.
- Engage in programs taught exclusively in English.

## ● Why choose a dual degree?

Opting for a dual degree presents a multitude of advantages:

- Immerse yourself in new academic experiences and elevate your intellectual prowess.
- Expand your horizons through increased cultural and social exposure.
- Delve into a new business environment and broaden your understanding.
- Foster valuable connections worldwide for future professional collaborations.
- Spend a full academic year in an outstanding city and renowned school.
- Become an integral part of a diverse and inclusive international community.
- Equip yourself with the tools for a successful international career.

## ● How does it work?

- Eligibility: Students must hold a 180 ECTS Bachelor's degree. For the English Language Requirements, more information at [this link](#).
- Duration: Four semesters (two years).
- Language: English.
- Accreditation: 120 ECTS.
- The M1 takes place in United Kingdom, Kent, University of Kent.
- The M2 takes place in France, Marseille, AMSE/Aix-Marseille Université.

## ● Fees

- UK: The fees for the first year are paid to the University of Kent and are of £9,500.
- France: The fees for UE students are of 250 €. Aix-Marseille Université applies differentiated fees for non-EU students: check out the new policy [here](#).

# Curriculum

## Master 1

| Courses                                                            | Credit amount | Term taught | Credit level |
|--------------------------------------------------------------------|---------------|-------------|--------------|
| Advanced Microeconomics of Consumers, Markets and Welfare          | 15            | Autumn      | 7            |
| International Economics                                            | 15            | Spring      | 7            |
| Advanced Macroeconomics                                            | 15            | Autumn      | 7            |
| Econometric Methods                                                | 15            | Autumn      | 7            |
| Labour Economics                                                   | 15            | Spring      | 7            |
| Development Economics                                              | 15            | Autumn      | 7            |
| Research Skills for Economics Dissertation                         | 5             | Spring      | 7            |
| PLUS the following extra-curricular compulsory module:             |               |             |              |
| Economics Skills and Employability for MSc Programmes              | 3             | Yearlong    | 7            |
| PLUS you must take 30 credits from the following optional modules: |               |             |              |
| International Finance                                              | 15            | Spring      | 7            |
| Time Series Econometrics                                           | 15            | Spring      | 7            |
| Microeconometrics                                                  | 15            | Spring      | 7            |
| Sustainable Economic Growth and Environmental Valuation            | 15            | Spring      | 7            |

## Master 2, choose 1 track among 2

### Track Econometrics Data Science (EDS)

| Courses - Semester 3                                                                                                             | ECTS |
