1.2 Year highlights
This report presents the academic activities and achievements of the Aix-Marseille School of Economics (AMSE) during the civil year 2017.

2017 was a key transition year for AMSE. It turned out to be our last year as a Laboratoire d’Excellence (Labex) and the year we obtained official recognition as a Graduate School of Research.

Aix-Marseille School of Economics started life in 2011 as a Labex under the direction of Alain Trannoy. The Labex led to a profound transformation in the approach to economics at Aix-Marseille University, where AMSE brought together research and graduate-level training around a project addressing globalization and public policies. This enabled us to adapt to academic globalization and to become a well-integrated member of the international community of first-rate economics departments.

In early 2017, Agence Nationale de la Recherche (ANR) launched an ambitious call for French academic departments in all disciplines to develop effective Graduate Schools of Research, combining innovative graduate-level teaching with excellent research. Under the direction of Alain Venditti, AMSE responded with a project built on the successful launch of the EcAMSE school in 2015, which had restructured our Master’s and PhD programs to meet international standards. Centered around the challenges raised by a world in crisis, AMSE’s project was one of only 29 out of 191 projects to be chosen for funding. It was awarded 16 million euros over the period 2018-2027 to achieve its objectives.

In parallel, scientific life at AMSE was flourishing. Among the highlights of 2017, we notably welcomed 3 new researchers, 4 new postdocs and 13 new doctoral students. We published 87 articles in peer-reviewed economic journals, 11 articles in other disciplines, 15 book chapters and 4 books. We hosted 3 globalization lectures, 123 seminars, 9 workshops and 5 conferences, including the main international conference on public economics, the Journées Louis-André Gérard-Varet.

We hope you enjoy reading this report!

Yann Bramoullé
Scientific director
INTRODUCTION

YEAR HIGHLIGHTS

Birth of the EUR AMSE

In 2017, AMSE was officially recognized as a Graduate School of Research (GSR). Out of 191 projects submitted in response to a national call, two of the 29 selected for funding came from Aix-Marseille University. EUR AMSE’s project was one of them.

16th Journées LAGV
Conference in public economics

More than 450 papers from 40 countries were submitted to this edition of the conference which welcomed 4 keynote speakers: Salvador Barberà, Alan Krueger, Ariel Rubinstein, and Martin Weitzman.

A new urban campus

In May, AMSE moved to a new building belonging to Aix-Marseille University (AMU) near the main Marseille station Gare Saint-Charles. The Mayor and the President of AMU officially opened the new premises housing the AMSE research center, AMSE graduate school, and the Faculty of Economics and Management.

AMSE Graduate school: The career day

Annual Career Day allows students to gain insights from professionals coming to talk about their experience, thus learning about the different career possibilities open to an economist. Among the companies and organizations participating in 2018 were Capgemini, Crédit Agricole, Cereq, Janssen France, Ubisoft, DIREECTE PACA, ORS PACA, IREED, Business & Decision, FERDI, Renault Digital... Most speakers were AMSE alumni.

AMSE 2017

- 3 globalization lectures,
- 123 seminars,
- 9 workshops,
- 5 conferences (40 - 200 people)

2.1 Permanent researchers

In 2017, AMSE had 96 researchers working in two research units, GREQAM (Groupement de recherche en économie quantitative d'Aix-Marseille) - 88 members - and SESSTIM (Sciences économiques et sociales de la santé et traitement de l’information médicale) - 8 members.

**GREQAM**
- 63 researchers at Aix-Marseille University: 19 assistant professors, 3 tenure tracks and 41 professors,
- 15 researchers at CNRS: 5 junior researchers, and 10 senior researchers,
- 3 researchers at Ecole Centrale de Marseille: 1 assistant professor and 2 professors,
- 2 researchers at EHESS: 1 assistant professor and 1 researcher,
- 3 researchers at Kedge Business School: 3 associate professors,
- 1 researcher at McGill University: a professor,
- 1 researcher at University of Toulon: an assistant professor.

**SESSTIM**
- 5 INSERM researchers,
- 3 IRD researchers.

### DEPARTURES AND ARRIVALS

4 members left AMSE in 2017:

- **Olivier Bargain** joined Bordeaux University,
- **Giorgio Fabbi** joined GAEL (Laboratoire d’économie appliquée de Grenoble),
- **Anne Péguiin-Feissolle** retired,
- **Eric Strobl** joined Universität Bern.
3 new members joined AMSE in 2017:

**Sarah Flèche**: PhD from Paris School of Economics, she is tenure track at Aix-Marseille University,

**Gaëtan Fournier**: PhD from University Paris 1, he is assistant professor at Aix-Marseille University,

**Christelle Lecourt**: PhD from University of Lille 1, she is professor at Aix-Marseille University.

---

**AWARDS**

**Simon Ray**
*Aix-Marseille University Thesis Prize*

Simon Ray who defended his PhD under the supervision of Témy Lecat (Banque de France) and Patrick Pintus (AMU, AMSE) on the topic "The Real-Estate Component in the Production Process of Non-Financial Firms: Investment, Employment and Mobility" received the Aix-Marseille University Thesis Prize in November 2017.

**Guillaume Wilemme**
*Louis Forest Honorary Prize (Economics and Management), 2017 Prize of the Chancellery of the Universities of Paris*

Guillaume Wilemme, a young Doctor in Economics, won the Louis Forest Honorary Prize (Economics and Management), the 2017 Prize of the Chancellery of the Universities of Paris, for his thesis defended in December 2016 "Searching on the labor market: theoretical implications and empirical evidence" under the supervision of Étienne Wasmer, Professor of Economics at Sciences Po and Fabien Postel-Vinay, Professor of Economics at University College London. Guillaume is currently a post-doctoral fellow at AMSE.
2.2 PhD students and post-doctoral fellows

PHD STUDENTS

In 2017, AMSE had 81 doctoral students, compared to 87 in 2016 and 81 in 2015.

At the start of the 2017-2018 academic year, AMSE welcomed 13 new doctoral students: 8 men and 5 women:

- **Vadim Aevskiy** - Advisor: E. Girardin
- **Kathia Bahloul** - Advisor: T. Seegmuller
- **Anna Belianska** - Advisor: C. Poilly
- **Loann Desboulets** - Advisors: E. Flachaire and C. Protopopescu
- **Kévin Genna** - Advisors: R. Boucekkine and A. Venditti
- **Joël Guibelin** - Advisor: A. Trannoy
- **Pavel Molchanov** - Advisor: F. Trionfetti
- **Sélim Rafik** - Advisors: F. Dufourt and K. Gente
- **Meryem Rouzlane** - Advisor: G. Dufrénot
- **Rashid Sbia** - Advisor: P. Garello
- **Laura Sénécal** - Advisors: F. Dufourt and C. Poilly
- **Claudia Wiese** - Advisor: H. Djebbari

In 2017, 13 doctoral students defended their thesis.

![Geographical origin of new PhD students](chart)

POST-DOCTORAL FELLOWS

In 2017, there were 17 post-doctoral fellows at AMSE:

- 4 new post-doctoral fellows joined AMSE in 2017:
  - **Manohar Kumar**: PhD from LUISS Guido Carli in 2013
  - **Matt Leduc**: PhD from Stanford University in 2014
  - **Raghuil S Venkatesh**: PhD from University of Warwick in 2017
  - **Guillaume Wilemme**: PhD from Sciences Po in 2016

- 5 post-doctoral fellows left AMSE in 2017:
  - **Zouheir El-Sahli** joined Universiteit Leiden as assistant professor
  - **Kenan Huremovic** joined IMT School for Advanced Studies as assistant professor
  - **Yang Lu** joined University of Paris 13 as assistant professor
  - **Carole Treibich** joined University of Grenoble-Alpes as assistant professor
  - **Anastasia Zhutova** joined Banque de France as economics researcher
2.3 Visiting and mobility

MOBILITY AND VISITING PROGRAM

In 2017, 7 researchers received a coauthor and 9 researchers visited a coauthor.

1 post-doctoral fellow received a coauthor in 2017.

7 PhD students and 3 post-doctoral fellows visited a coauthor in 2017.

AMSE also supports doctoral student mobility opportunities: 5 PhD students visited another university for long periods (more than 2 months).

VISITORS

In 2017, 7 researchers from other universities visited AMSE for periods ranging from a month to the full academic year. One came from Australia, 2 from Belgium, 2 from Canada, 1 from Norway and 1 from USA.

Geir B. Asheim is professor of economics at the University of Oslo. He is a member of the Norwegian Academy of Science and Letters and an editor of the journal *Social Choice and Welfare*. Geir was born in Stavanger, Norway, and he holds a PhD in economics at University of California, Santa Barbara. He has had longer visits to several North-American universities, including Cornell, Harvard, Montréal, Northwestern and Stanford, and he has been a fellow at the Institut d’études avancées de Paris.

His main research fields are: (1) Game theory in which he has published the book *The Consistent Preferences Approach to Deductive Reasoning in Games* (2006) in addition to a number of journal articles (one awarded the Royal Economic Society Prize). (2) Intergenerational equity in which he has published numerous articles during the last 30 years. During the last few years, his research has focused on axiomatic analysis of intergenerational equity, motivated by the need to resolve the intergenerational conflicts that climate change leads to.

Geir was visiting AMSE and a fellow of IMéRA from January to July 2017. He is currently working on a project entitled “Intergenerational risks, variable population and sustainability”. The background for this project is that evaluation of climate policies requires criteria that are adapted to variable population and risk. However, the basic support for sustainability yielded by normative criteria of intergenerational equity need not generalize to this context. Rather with variable population and risk, a main concern becomes to avoid lives with low wellbeing, e.g. after some catastrophic future environmental degradation. The main research question is thus to investigate the tension between the seemingly innocent axioms on which such normative criteria are based, and the seemingly unattractive implications that they lead to in the context of variable population and risk.

Rajeev Dehejia was visiting AMSE for June 2017. He is on the faculty of the Robert F. Wagner Graduate School of Public Service at New York University, and was previously at the Department of Economics and The Fletcher School at Tufts University and at the Department of Economics and the School of International and Public Affairs at Columbia University. Visiting positions include Harvard, Princeton, and the London School of Economics. He is a research associate of the National Bureau of Economic Research, and affiliated with the Institut zur Zukunft der Arbeit (IZA) and CESifo. He is a coeditor of the *Journal of Business and Economic Statistics*.

Rajeev’s research interests include econometrics, development economics, labor economics, and public economics, with a focus on applied empirical micro. Rajeev has worked on econometric methods for program evaluation, including matching and propensity score methods, Bayesian methods for program evaluation, and most recently external validity in experimental and non-experimental methods. Another theme in his research is household response to uncertainty, looking at issues such as child labor, micro finance enterprises, fertility decisions, and religion and consumption insurance.

It was Rajeev’s fourth visit to AMSE.
David de la Croix (born 1964, PhD 1992) is Professor of Economics at Université catholique de Louvain (Belgium). He has taught on a visiting basis at UCLA, Copenhagen, Aix-Marseille, Nantes, Capetown, Sao Paulo, Taipei and Rostock. He is the instigator and editor-in-chief of the Journal of Demographic Economics, and was associate editor for the Journal of Economic Dynamics and Control, the Journal of Development Economics, and the Journal of Public Economic Theory.

His research interests cover demographic economics, human capital and growth in a historical context, and conflict between generations. His choice of topics reveals that he is mostly interested in understanding households’ incentives in the present and in the past. Working with 49 co-authors, he has published a number of journal articles (including in journals such as the American Economic Review, the Quarterly Journal of Economics, and Review of Economic Studies), and a treatise on Economic Growth co-authored with Philippe Michel. He has also written a number of policy briefs addressed to a more general audience. And he has advised 19 doctoral dissertations.

David was visiting AMSE and a fellow of IMéRA from September to December 2017. He is currently working on a project entitled “Did elite human capital trigger the industrial revolution? Insights from a new database of scholars from European universities”. The purpose is to determine in a quantitative way whether elite knowledge, as measured by the density and quality of university professors and members of academies, was critical to the triggering of the rise of industrialization in the West (1200-1800), or whether universities and academies just served as luxury goods for the enjoyment of the upper class. The months spent at IMéRA have sponsored the development of the southern part of the project, with a focus on what was originally Aix University, and facilitated interaction with people from other disciplines like history and geography.

Brian McCaig is an associate professor of economics at Wilfrid Laurier University, Canada. He holds a PhD in economics from the University of Toronto and has previously worked as a lecturer at the Australian National University.

Brian’s main research fields are international trade and economic development. In particular, he is interested in how exporting and FDI affect workers, households, and firms in low-income countries. Most of his research focuses on Vietnam and previous research has analysed the impact of exporting on poverty, structural change, the movement of workers out of informal firms to formal firms, and income inequality. Current work focuses on the impact of exporting on the movement of workers out of informal firms into formal firms, microenterprise dynamics and responses to exporting, formal firm responses to exporting, and the effect of FDI jobs on human capital accumulation and migration.

Brian’s research has been published in the American Economic Review and the Journal of International Economics. He has also worked as a consultant for the International Food Policy Research Institute, the U.S. Department of Labor, and the World Bank while his research has been funded by the Growth and Labour Markets in Low Income Countries Program and the World Bank.

Brian was visiting AMSE from September to December 2017.
RESEARCH

3.1 Publications
3.2 Research highlights
3.1 Publications

In 2017, AMSE researchers published 98 articles in academic journals, 15 book chapters, and 4 books. The respective numbers for 2016 were 108 articles, 12 book chapters and 5 books.

AMSE researchers achieved a significant rate of interdisciplinary publication. Of the 98 articles, 87 were published in economics and 11 in other disciplines (12%) such as mathematics, philosophy and medicine.

The quality of these publications can be judged according to the CNRS ranking of economics journals.

In 2017, AMSE researchers published 22 articles in journals ranked 1 or 1*, 30 articles in journals ranked 2, 16 articles published in journals ranked 3-4 and 19 in unranked journals.

AMSE researchers also wrote 44 working papers in 2017, compared to 44 in 2016 and 52 in 2015.

3.2 Research Highlights

Altruism in Networks

The research program

In many circumstances, individuals give money, time or resources in kind to others. These private transfers typically represent a fairly large share of the formal economy, even in developed economies. They also interact with market transactions and with public transfers in complex ways. For instance, financial transfers within French families doubled following the 2008 crisis, to reach about 4% of GDP, suggesting a strengthening of informal safety nets in response to economic upheaval. A large empirical literature also finds evidence of eviction between public and private transfers. When poor households become beneficiaries of a new public program, their richer kin often decrease their informal support. This weakens the impact of the program on its targeted recipients and generates spillovers on untargeted households. Thus, private transfers have major impacts on social welfare and economists have strived to understand their causes and consequences.

Our paper brings together two main features of private transfers: altruism and networks. Altruism appears to be a main motive behind transfers: People give to others they care about and, in particular, to their family and friends in need. Economists have long acknowledged the central role played by altruism. Following pathbreaking contributions by Gary S. Becker and Robert J. Barro in 1974, hundreds of articles have studied the economic effects of altruistic transfers. However, almost all of these studies have considered simplistic, unrealistic structures of altruistic ties such as small disconnected groups or linear dynasties. In fact, as is well-known from human genealogy, family ties form complex networks. And indeed, detailed empirical studies of transfers find strong evidence of network patterns. Private transfers flow through social and family networks, and tend to constitute complex networks themselves.

Paper’s contributions

We provide the first theoretical analysis of altruism in networks. We assume that agents are embedded in a fixed network and care about the well-being of their network neighbors. We adopt a benchmark model of altruism and assume that an agent’s social utility is a linear combination of her private utility and others’ private and social utilities. Depending on incomes, agents may provide financial support to their poorer friends. We study the Nash equilibria of this game of transfers.

We find that transfers and consumption depend on the network in complex ways. In equilibrium, an individual’s transfers may be affected by distant agents. Income shocks may propagate throughout the network of altruism. Our analysis highlights the role played by transfer intermediaries, transmitting to poorer friends money received from richer friends, in mediating these effects.

Computing equilibria is not immediate. We make theoretical headway by uncovering a key property of the game of transfers. We show that Nash equilibria maximize a concave potential function, linked to well-known problems of optimal transport on networks. This allows us to establish existence, uniqueness of equilibrium consumption, and generic uniqueness of equilibrium transfers.

We then characterize the impact of changes in incomes and in the altruism network. We find that these impacts depend on the structure of equilibrium transfers before the change. Adjustments in private transfers can have far-reaching repercussions and can generate surprising indirect effects. In particular, we show that a decrease in income inequality or an expansion in altruism can end up increasing consumption inequality.

The research process

This is an instance of a project where the final version differs greatly from the original submission. We obtained many new results in the revision process and still had to cut the paper’s length in half. One consequence is that we now have an Online Appendix which is twice as long as the published article (!) This forced us to focus in the paper on core results and insights. In the end, we believe that this trimming was beneficial, which may be further proof that in research, less is often better...

Future research

Building on our analysis, many interesting issues could be studied in future research. We are currently working on a follow-up project looking at stochastic incomes. We seek to understand the risk-sharing and consumption smoothing properties of altruism networks. Altruism also has important implications for the design of public policies. When agents are embedded in a network of altruism, how to target recipients of poverty alleviation program? How to introduce formal insurance into communities? How to tax gifts and bequests? Bringing the model to data could also be particularly interesting despite, or perhaps thanks to, the challenges involved.

---

Eduardo Perez-Richet

PhD in 2008 from the University of Aix-Marseille.

Renaud Bourlès has been an associate professor at Ecole Centrale Marseille since 2009. He obtained his PhD in 2008 from the University of Aix-Marseille.

Yann Bramoullé has been a CNRS directeur de recherches at AMSE since 2012. He obtained his PhD in 2002 from the University of Maryland, College Park. He was a postdoctoral fellow at Toulouse between 2002 and 2004. He was first an assistant professor and then an associate professor at Laval University in Québec between 2004 and 2012.
Matching with Phantoms

**The research program**

This research emphasizes a novel form of market frictions based on the persistence of obsolete information about traders who have already found a match. We refer to these traders as phantom traders, or phantoms for short. Phantoms are a by-product of the search activity: when exiting the market, each trader may leave a trace that disappears over time, i.e., information about them remains visible despite their no longer being available. Phantoms result in a loss of time and resources for future traders who want to find a partner. Our purpose is to analyze this dynamic form of congestion and its implications for labor market dynamics.

**Paper’s contributions**

We first provide motivational evidence. Phantom traders are ubiquitous in search markets. Most people looking for a job, a house, or even a partner will have experienced situations where information regarding the object of the search was clearly outdated. On Craigslist, a major job board, the distribution of ads by listing age is uniform. This implies that employers never delete their obsolete postings – otherwise the density would be decreasing. A conservative computation suggests that at least a third of all ads are phantoms on this platform.

We then study the impact of such phantoms by sketching a simple scenario where information obsolescence is the only source of matching frictions. The key insight is as follows: today’s matches fuel the phantom stock, thereby generating tomorrow’s frictions. This scenario generates an aggregate matching function, the Phantom Matching Technology (PMT), featuring intratemporal and intertemporal externalities.

Intratemporal externalities result from the fact that an increase in the number of agents on the long side of the market reduces the proportion of phantom traders. Intratemporal externalities imply that the PMT displays increasing returns to scale in the short run. Intertemporal externalities result from the fact that current matches fuel phantom traders, thereby lowering the future number of matches. Intratemporal and intertemporal externalities balance each other, and the PMT features constant returns to scale vis-à-vis the whole history of traders in the long run.

Lastly, we embed a generalized version of this function into an equilibrium search unemployment model. Short-run increasing returns generate excess volatility in the short run and endogenous fluctuations based on self-fulfilling prophecies. When employers believe that the supply of vacancies will be large, they actually expect that the phantom vacancy proportion will be small. This leads them to post many vacancies so as to benefit from a fast matching process, and this confirms the belief. Therefore information obsolescence not only provides a rationale for the properties of the long-run matching function, but also offers a natural source of aggregate volatility. We illustrate these properties in the case of a limit cycle, which is based on the countercyclicality of the phantom vacancy proportion. The cycle features the US volatility and covariance of unemployment and vacancy-to-unemployment ratio. To some extent, it can also reproduce the degree of persistence of such data.

**Future research**

The existence of phantoms implies that older job listings are less likely to represent true vacancies than younger ones. Jim Albrecht, Susan Vroman and I build a model where job seekers direct their search based on the listing age for otherwise identical listings. Forming a match with a vacancy creates a phantom of the same age. Therefore the magnitude of the negative informational externality associated with match formation increases with the listing age. The directed search behavior of job seekers leads them to over-apply to younger listings.

We also plan to study listing renewal and listing destruction. The general idea is to come up with a model of mutual search behavior on digital platforms. Ultimately, the model would be applied to alternative platforms and markets. The empirical side of the research involves web scraping techniques. Morgan Raux, Marc Sangnier and I are building a panel dataset of ads from the US job boards Craigslist, Monster and Indeed. We will estimate the hazard rates of job listings by listing age, distinguishing ads that exit the dataset from ads that are subsequently renewed.
Private Eradication of Mobile Public Bads

The research program

The management of public bad resources represents a ubiquitous challenge with real-world policy implications. Examples are numerous: infectious disease, fire, invasive species, antibacterial resistance, air pollution, noxious advertising, cyberspace viruses, and aquaculture pathogens, among many others.

Controlling these harmful factors is complicated by their mobility since they spread to surrounding areas, causing harm in other locations. Moreover the spatial connectivity induced by the mobility of a resource influences private decisions, which collectively can have important consequences for control or eradication across the spatial domain.

This paper provides an analysis of a spatial-temporal game between property owners aiming to reduce damage to their own properties. It considers how private decisions depend on property-specific environmental features and on the behavior of other landowners.

Paper’s contributions

We develop an analytical model with an arbitrary number of spatially-distinct properties and discrete-time resource dynamics.

Our first contribution is to completely characterize the equilibrium strategy of each owner and the resulting effects on stock and control of the public bad across space. We especially show how the private trade-off between controlling the expansion of a public bad on one’s own property and eradicating it depends on the characteristics of its spread. For instance, high mobility results in lower private control, but a sufficiently large marginal dynamic cost may lead to global eradication.

Second, we also identify the social planner’s optimal control pattern across space and time. We find the intuitive result that non-cooperative property owners will provide too little control of the public bad. Going a step further, we show analytically how the extent of this externality is driven by heterogeneity and other features of the problem, and identify situations in which little is to be gained from cooperation among private owners. That is, when the marginal dynamic cost inflicted by the stock is low, neither the social planner nor the non-cooperative private property owners will engage in much control. However as the marginal dynamic cost grows, so does society’s benefit from cooperation among property owners. This intuitive finding suggests that as the size of the externality grows (up to a specific limit), so does the importance of government intervention.

Our third main contribution is to completely characterize the gains from inducing cooperative behavior among non-cooperative property rights holders. Naturally, to the extent that properties are heterogeneous, the side payments required to achieve cooperation will differ across space. We derive the magnitude of these side payments as a function of damage, cost, spread, and growth.

To summarize, a key focus of our analysis is the conditions under which eradication is undertaken by decentralized owners and/or is desired by the social planner. We find that there is often consistency between these.

Research process

This paper was designed to be the last project on the roadmap of my post-doctoral fellowship, and follows two previous papers on the role of the spatial dimension in natural resource management. The objective was to close this pleasant and interesting collaboration with my co-authors by turning the question around: eradication (invasive species), instead of preservation. It wound up being the second paper we published ....but that’s part of the long story of the submission and publication process!

Future research

Although this paper closes a first research program on the management of mobile resources, we are now planning to continue analyzing the influence of the spatial dimension in the design of public policies. The aim is to progressively revisit standard ways of addressing this dimension, and to tackle new issues raised by this new approach. For instance, in this paper we assume that all economic agents consider the resource as a public bad, while it could be a good for a subset of agents. One consequence is how to consider conflicts of interest between those who want to conserve the resource and those who are eradicating it. Overall, the spatial dimension entails many biological and strategic interactions, which deserve attention.
The Expected and Unexpected Benefits of Dispensing the Exact Number of Pills

Carole Treibich, Sabine Lescher, Luis Sagon-Teyssier and Bruno Ventelou, Plos ONE, 12(9) : e0184420.

The research program

European countries vary in their methods of supplying drugs, some dispensing packaged drugs (e.g. Belgium, Austria, Sweden, Italy, France), others dispensing the exact number of tablets required (the Netherlands, the UK, the Czech Republic). The healthcare system, and in particular the method of supplying antibiotics, has been shown to impact the risk of drug misuse and therefore the magnitude of bacterial resistance, one of the major threats in modern medicine. However, changing the drug delivery mode has a cost, at least in terms of human resources, making it difficult to promote without a more precise assessment of its benefits.

Paper’s contributions

This study investigates the impact of per-unit dispensing of 14 antibiotics on three outcomes likely to generate antibiotic resistance: self-medication, surplus pills being released into the environment and compliance with treatment.

We find all-round beneficial effects. First, lower quantities of antibiotics are supplied under the per-unit dispensing system. Actually, the initial packaging needed to be modified in 60% of per-unit dispensing, meaning that the packaging available in the community pharmacy did not match the prescription (or the reverse). Dispensing the exact number of pills thus reduced by 10% the number of pills supplied. This mismatch suggests a potential source of savings for the French national health care system. Second, the lower likelihood of having pills left at the end of treatment (often not recycled) may also reduce self-medication. Third, per-unit dispensing also appears to improve adherence to the antibiotic treatment.

This article is one of the first to analyse adherence to antibiotic treatment in an outpatient setting. We demonstrate that the drug dispensing process has an effect, likely “causal”, as the design of the study allows this type of inference. Reforming the dispensing method could thus have long-term positive effects on the environment, although the current study does not permit us to assess these delayed effects in a quantitative manner (ecological indicators of bacterial resistance).

Research process

Following the trend towards a standardized process in the evaluation of public policies, we advised the French Ministry of Health to implement a randomized controlled experiment to evaluate the impact of the per-unit dispensing of antibiotic treatments. A few months later, our research team (economists and biostatisticians from two Aix-Marseille University units: GREQAM and SESSTIM) was mandated to implement this evaluation in collaboration with four Regional Health Agencies. Approval from the French ethics committee was obtained in 2014 (avis 14-185). Throughout 2015, a clustered randomized controlled trial was carried out in 100 retail pharmacies. Pharmacies were asked to recruit patients who were then interviewed by phone two to three days after completion of their treatment. In addition to questions about the dispensing mode, the 1,185 interviewed patients provided information on their habits of recycling drugs, intended self-medication and adherence to the treatment. The randomization of the intervention ensured comparability, and thus unbiased assessment of the impact of the change in the dispensing mode.

This design was coupled with an observational study of pharmacists, aimed at assessing the main professional difficulties associated with per-unit drug dispensing.

Future research

Our measurement of adherence relies on patients’ declarations, which is a limitation. It might be possible, by observing administrative data on health expenditure reimbursements, to identify the dispensing of an equivalent drug a few weeks after completion of the initial treatment, which could indicate poor compliance. Such administrative data concerning our sample have not been obtained yet. This could be the opportunity to cross-validate the result obtained on adherence. Note that a companion paper published in the European Journal of Public Health already validates the correlation between the two adherence-measuring tools, the adherence scale metrics (Morisky scale) and the pill-counting method, for improved monitoring of antibiotics adherence.

We recognize that the results of an experiment based on 100 voluntary pharmacies cannot automatically be generalized to the 26 000 community pharmacies of France. This study actually provided an opportunity to grasp the general weaknesses associated with small-scale randomized experiments. Possible individual adaptations and new practices, occurring only in the long run, were not taken into account. A real issue is how the drug industry can adapt: pharmaceutical companies can strongly facilitate the new dispensing mode by making appropriate changes to the supply-chain. A new wave of experiments, at a larger scale and with more contextual adjustments, would then be needed for a full assessment of the reform.
04
GRANTS

4.1 Focus on the AMSE graduate school of research
4.2 Grants 2017
4.1 Focus on

AMSE GRADUATE SCHOOL OF RESEARCH

AMSE obtained a Graduate School of Research (GSR) in 2017. On the 191 eligible projects, 29 were funded nationally and two - including the EUR AMSE - among the projects presented by Aix-Marseille University.

The Aix-Marseille School of Economics Graduate School's project combines a research unit (UMR 7316), a graduate school and an outreach institute (IDEP).

AMSE is an innovative and original project centered on the fundamental concerns of our societies. Research and teaching are carefully combined to train a new generation of economists capable of dealing with all the challenges of a world in crisis, capable of putting their knowledge of economics to work for citizens and policy makers.

# The research project

AMSE research takes three directions.

Axis 1: Economic crises and the crisis of macroeconomics
We aim to help provide new foundations for macroeconomics, taking into account the lessons of the 2008 crisis.

Axis 2: Development, democratic transitions, migrations and growth
Most countries are experiencing higher levels of inequality and unemployment. Some developing countries have, in addition, faced political instability and conflicts, generating massive migration flows. Our aim is to understand these new dynamics, the possible resilience mechanisms and the means to prevent or alleviate future crises.

Axis 3: Facing environmental and health crises
We analyze the causes, consequences and policy implications of pollution, resource overexploitation and climate change.

Our aim is to build on our four existing fields of methodological excellence:
› Macrodynamics and quantitative macroeconomics;
› Network theory;
› Econometrics of time series, panel data;
› Big Data.

# The graduate school

AMSE graduate school is a department of the Faculty of Economics and Management at Aix-Marseille University. It provides world class programs in Economics focusing on: empirical and theoretical economics, economic policy analysis, quantitative finance and insurance, and econometrics-big data-statistics, and awards Master, Magistère, and PhD degrees.

AMSE graduate school combines the advantages of the university and French Grandes Écoles. It brings together rigorous selectivity, research-based pedagogy, world class support to students, interdisciplinary curricula, strong connections with the business community and international visibility. Our aim is to train a new generation of economists, researchers, professors, and decision-makers capable of addressing the challenges of a world in crisis.

Organized with a curriculum in 3 years from Bac+3 to Bac+5 (including a Big Data training on the 3 years of the curriculum), and with another one in two years from Bac+4 to Bac+5, Aix-Marseille School of Economics welcomed its first cohort of students in September 2015.
# The IDEP outreach

The Institut d’Economie Publique (IDEP), created some 20 years ago for public policy analysis plays an essential role in disseminating knowledge and providing advice on economic problems.

IDEP aims at providing a multi-faceted approach taking four directions:

• Knowledge-sharing: organizing several conferences, developing pedagogical tools, a web video-channel, and an online editorial to disseminate academic findings;

• Intervention in public debate;

• Consulting, to assist European and Mediterranean decision-makers at the local and national levels;

• Close collaboration between IDEP and the AMSE graduate school to welcome and provide support to interns, and for end-of-study projects.

The Graduate schools of research

This action aims to offer university sites the opportunity to increase the impact and attractiveness of international research and training in one or more scientific fields by bringing together master’s and doctoral courses backed by one or more laboratories of high level research. It is operated by the National Research Agency (ANR) and has a 300M€ budget for projects selected for a maximum duration of 10 years.

191 projects were evaluated. 29 were proposed by an international jury, chaired by Sir Malcom Grant, President of the National Health Service and former President of University College London.

The French State has decided to follow the jury’s proposals. Professor Grant pointed out that the members of the jury, from 8 different nationalities, took their decisions unanimously, and underlines the very high quality of the selected projects. He pointed out that the winners cover a wide range of fields, the jury having worked solely on the criterion of excellence, without disciplinary considerations.

These projects focus on various themes such as, for example, public health digital, economics and social sciences, physical innovation and engineering, the neurosciences of pain, sustainable water management, marine science or humanity and cultural transfer.

In 2017, AMSE researchers were the principal investigators or lead scientists of projects under 14 large scale grants (15 in 2016): 1 funded by the European Research Council; 10 funded by the Agence Nationale de la Recherche, 2 funded by the European Commission (1 H2020 and 1 FP7), and 1 funded by A*Midex. Together, these projects represent roughly 3.1 million euros of grant money in support of research activities.

**European Research Council**

**Markets and Networks**

**ERC Consolidator Grant**

*from 04/01/2014 to 03/31/2019*

**Principal Investigator:** Y. Bramoullé

**Amount:** 481 087 €

**Researchers involved in the project:**

**Agence Nationale de la Recherche**

**Social Exclusion, Social Mobility and Social Networks**

**ANR Young Researchers**

*Lead scientist:* S. Bervoets

*from 13/01/2014 to 12/01/2018*

**Amount:** 100 000 €

**Researchers involved in the project:**

S. Bervoets, Y. Bramoullé, F. Deroian, H. Djebbari, M. Faure, B. Fortin, M. Jackson, Y. Zenou.

**Financial And Real Interdependencies: Volatility, International Openess And Economic Policies**

**ANR**

*Lead scientist:* T. Seegmuller

*from 01/10/2015 to 31/09/2020*

**Amount:** 128 059 €

**Researchers involved in the project:** F. Dufourt, K. Gente, A. Venditti.

**Marchés locaux du travail : différences spatiales des performances des individus sur leur marché du travail en France et en Allemagne**

**ANR**

*Lead scientist:* C. Schluter

*from 01/01/2016 to 31/12/2019*

**Amount:** 300 525 €

**Researchers involved in the project:** P.-P. Combes, G. Spanos, F. Trionfetti.
Vers une économie plus verte : politiques environnementales et adaptation sociétale
ANR
Lead scientist: H. Stahn
From 01/10/2016 to 31/03/2021
Amount: 174,000 €

La mesure des inégalités ordinales et multidimensionnelles
ANR
Lead scientist: N. Gravel
From 01/10/2016 to 30/09/2021
Amount: 118,000 €

Analyses comportementales et expérimentales en macro-finance
ANR
Lead scientist: S. Luchini
From 01/01/2016 to 31/12/2019
Amount: 59,820 €

Manipulation et obsolescence de l’information sur internet
ANR
Lead scientist: B. Decreuse
From 01/09/2017 to 30/09/2020
Amount: 208,526 €

Famille et inégalité
ANR
Lead scientist: O. Bargain
From 01/09/2017 to 30/09/2021
Amount: 47,520 €

Terrorism, Radicalization and Government Policy in MENA
ANR
Lead scientist: C. Muller
From 01/09/2017 to 30/09/2021
Amount: 409,774 €

Economie du logement et évaluations de politiques publiques
ANR
Lead scientist: A. Trannoy
From 01/09/2017 to 30/09/2021
Amount 161,977 €
**H2020**

**FoRESight and Modelling for European Health Policy and Regulation**

*Lead scientist: J-P. Moatti*

*from 01/01/2015 to 31/12/2017*

*Amount: 2 650 407 € (AMU: 486 000 €)*

European project coordinated by Aix-Marseille University and associating 10 institutional partners from 7 countries: Austria, Spain, Estonia, Finland, France, Italy and Poland.

---

**7th Framework Programme**

**A Change of Direction. Fostering Whistleblowing in Europe in the Fight Against Corruption**

*7th PCRD*

*Lead scientist: F. Kandil*

*from 01/03/2016 to 8/02/2018*

*Amount: 71 150 €*

---

**A*Midex**

**Measurement and Determinants of Inequalities in Health and Well-Being in the middle-eastern and north-african (MENA) region**

*A*Midex Euro-Mediterranean Cooperation

*Lead scientist: M. Abu Zaineh*

*from 01/03/2015 to 31/03/2017*

*Amount: 350 000 €*

SCIENTIFIC EVENTS

5.1 Seminars
5.2 Conferences and workshops
5.1 Seminars

11 seminars (10 in 2016), reflecting the diversity of the researchers’ interests, were held on a regular basis, along with 1 recruitment seminar for researchers and postdoctoral fellows.

2 seminars held weekly: the AMSE-GREQAM Seminar devoted to the presentation of papers from all economic areas by researchers from outside GREQAM, and the PhD Seminar giving doctoral students the opportunity to present their work in progress to their peers and the GREQAM members.

3 seminars held every two weeks: the Ecolunch, where GREQAM members and visitors presented their research, alternating with the Interaction Seminar, where theoretical, empirical or experimental work on networks was presented, and the Statistics and Econometrics Seminar, open to researchers in theoretical and applied econometrics.

4 seminars are held on a monthly basis: the Development and International Economics Seminar featuring both theoretical and applied papers, the Economic Philosophy Seminar, a multidisciplinary seminar in economic philosophy, the Finance Seminar with presentations by researchers in theoretical and applied finance, and the Market-Marks Seminar, focusing on interdisciplinary approaches to economics.

1 seminar is organized more rarely: New Perspectives on Education, Learning and Wellbeing.

1 new seminar was instituted in 2017: the Economics and History Seminar.

123 seminar presentations in 2017

In AMSE-GREQAM Seminars, 22 papers were presented in 2017 (23 in 2016).

30 PhD Seminars (28 in 2016) gave 49 doctoral students (46 in 2015) the opportunity to present and discuss their work.

17 researchers (12 in 2016) participated in the bimonthly Ecolunch. Held alternately, Interaction Seminar featured 9 researchers from outside GREQAM (12 in 2016).

There were 10 Statistics and Econometrics Seminars, during which international econometrics specialists presented their work (16 in 2016).

There were 9 Development and International Economics Seminars, 7 Economic Philosophy Seminars, 8 Finance Seminars, 6 Market-Marks Seminars, 2 New Perspectives on Education, Learning and Wellbeing Seminars and 3 Economics and History Seminars.

THE GLOBALIZATION LECTURES

The "Globalization lectures" are special AMSE-GREQAM seminar sessions given by leading international experts.

In 2017, AMSE organized 3 Globalization lectures by guest speakers:

- Jérôme Adda, Bocconi University
- Donald Davis, Columbia University
- Jess Benhabib, University of New-York
5.2 Conferences and workshops

Since the creation of Labex AMSE in 2012, the number of international scientific conferences and workshops has increased sharply.

In 2017, 14 international events were organized including 5 conferences with between 50 and 200 participants and 9 workshops.

THE JOURNEES LAGV Public economics conference

The 16th conference in public economics Journées Louis-André Gérard Varet, welcomed 150 speakers and 4 keynote speakers:

- Salvador Barberà, Universitat Autònoma de Barcelona
- Alan Krueger, Princeton University
- Ariel Rubinstein, Tel Aviv University, New York University
- Martin Weitzman, Harvard University

More than 450 papers were submitted to this conference from 40 countries.

Launched in 2002, this conference has become the most important yearly conference in public economics in Europe. It aims to promote and diffuse high-quality research, with a special emphasis on articles that shed light on ‘real world’ policy making, in the spirit of the work of the late Louis-André Gérard-Varet. This is very much in line with the approach taken by the AMSE research community, and with the applied research and policy analysis of the "Institut d’Economie Publique" (IDEP - French institute for public economics).
AMSE and MaGHiC Macroeconomic Workshop 2017
May 5, 2017

This workshop brought together experienced European researchers in the field of Macroeconomics to discuss the recent theoretical and empirical advances on issues related to the consequences of the financial crisis, the evolution of economic policy in the context of a liquidity trap, and the international transmission of shocks.

Speakers:
• Stéphane Auray, CREST-Ensai
• Kenza Benhima, University of Lausanne
• Michael Devereux, University of British Columbia
• Luca Fornaro, Universitat Pompeu Fabra
• Karine Gente, Aix-Marseille University
• Miguel León-Ledesma, University of Kent
• Giovanni Lombardo, BIS
• Tommaso Monacelli, Universita' Bocconi
• Thomas Seegmuller, Aix-Marseille University

Workshop on New Challenges in the Measurement of Economic Inequalities and Injustices
June 14-15, 2017

Speakers:
• Ramses Abul-Naga, University of Aberdeen
• Francesco Andreoli, University of Verona
• Garry Barrett, University of Sydney
• Kristoff Bosmans, Maastricht University
• Koen Decancq, University of Antwerp
• Mathieu Faure, Aix-Marseille University
• Emmanuel Flachaire, Aix-Marseille University
• Nicolas Gravel, Aix-Marseille University
• Edvard Levasseur, Aix-Marseille University
• Brice Magdalou, University of Montpellier
• Karl Mosler, University of Cologne
• Patrick Moyes, University of Bordeaux
• Erwin Ooghe, University of Leuven
• Eugenio Peluso, University of Verona
• Alain Trannoy, Aix-Marseille University
• Claudia Zoli, University of Verona

Workshop on Heterogeneity in International Economics
June 16, 2017

This one-day workshop organized jointly with the Bank of France brought together researchers dealing with agent heterogeneity and its impact on international economics. Among the topics covered were wealth distribution, firms' heterogeneity, and global imbalances.

Speakers:
• Laurent Ferrara, Banque de France
• Karine Gente, Aix-Marseille University
• Fabio Ghironi, University of Washington
• Tommaso Monacelli, Bocconi University
• Francesco Pappadà, Banque de France
• Kim Ruhl, Pennsylvania State University
• Patrick Pintus, Aix-Marseille University
• Céline Poilly, Aix-Marseille University
• Daniele Siena, Banque de France
• Carolina Villegas Sanchez, ESADE Business School

Workshop on Wellbeing and Justice in the Social Sciences
June 26-27, 2017

Speakers:
• Mohammad Abu-Zaineh, Aix-Marseille University
• Melania Calestani, Kingston University, St. George's University London
• Luciana Fiorini, University of Western Australia
• Ted Fischer, Vanderbilt University
• Yezid Hernandez-Luna, Aix-Marseille University
• Alberto Prati, Aix-Marseille University
• Erik Schokkaert, University of Leuven
• Alison Strang, Queen Mary University
• Miriam Teschl, EHESS
• Ingrid Tucci, CNRS

Conference on Real and financial interdependencies
New approaches with dynamic general equilibrium models
July 6-7-8, 2017

The conference explored recent advanced research on the dynamical properties of intertemporal equilibrium models in relation to the following topics:
• business cycles;
• growth and structural change;
• macroeconomic policies and optimal taxation;
• inequalities with heterogeneous agents and/or countries;
• stochastic growth models;
• open macroeconomics and financial crisis;
• environmental economics.

AMSE / LAMETA GREEN-econ Workshop 2
September 25, 2017

GREEN-Econ is a collaborative research project funded by the ANR (French national research agency). Its aim is to analyze the transition process toward a greener economy, with a focus on environmental policies and the scope for societal adaptation.
Workshop on Elite human capital and the road to modernity: The East vs the West
October 17-18, 2017
Organized by Raouf Boucekkine, David de la Croix and Cecilia Garcia-Penalosa

The industrial revolution in Europe unleashed an economic and social transformation never experienced by any society since the Neolithic Revolution. What happened around 1800 was deeply rooted in history. Among the underlying causes of the “Rise of the West”, most researchers have identified the self-reinforcing dynamics of technological progress as key. What remain under debate are the key forces that made these virtuous circles possible. The degree to which upper tail human capital was responsible is disputed. Is it true, as Mokyr (2016) wrote that in a market economy it is the few that drag along the many?

Speakers:
• Sascha Becker, Warwick University
• Eric Chaney, Harvard University
• Jeremiah Dittmar, LSE
• James Kung, Hong Kong University
• Jakob Madsen, Monash University
• Joel Mokyr, Northwestern University
• Jared Rubin, Chapman University
• Etienne Wasmer, Sciences Po

ASSET Conference 2017 - The ASsociation of Southern European Economic Theorists
October 27-28-29, 2017
Organized by Raouf Boucekkine, Antonio Nicolò and Norma Olaizola

The Association of Southern European Economic Theorists (ASSET) is a group of economics departments and economics research centers that are all based in Southern Europe and the Mediterranean region (Cyprus, France, Greece, Israel, Italy, Portugal, Spain, Tunisia, and Turkey). ASSET promotes cooperation and exchange of ideas as well as researcher among the member institutions in the general fields of analytical and quantitative economics and econometrics.

ASSET’s meetings and activities are open to international scholars from all parts of the world.

Speakers:
• Jacques Drèze, Université Catholique de Louvain
• Marc Fleurbaey, Princeton University
• Rachel Griffith, University of Manchester
• Alain Trannoy, Aix-Marseille University

Second annual AFED conference on Law and Economics,
November 8-9, 2017
Organized by Paul Belleflamme, Bruno Deffains, Romain Espinosa and Pierre Garello

Aix-Marseille University hosted the second annual congress of the French Association of Law and Economics (Association française d’Economie du Droit - AFED). This event is an opportunity for researchers and researchers interested in interdisciplinary dialogue between economics and law to present their latest work.

The French Association of Law and Economics was created in 2016 to promote reflection in France on the contribution of economic analysis to law as well as on current evolutions in the law likely to modify economic and social dynamics. The Association is open to research professors, both economists and lawyers, and to the professional world.

Workshop on Corruption, Whistleblowing, and Democracy
November 9, 2017
Organized by Feriel Kandil and Manohar Kumar

The multidisciplinary workshop ‘Corruption, Whistleblowing, and Democracy’ addressed the problem of corruption within democracies, seeking to understand the conditions under which whistleblowing is a legitimate way of bringing accountability to play against unrestrained corrupt practices. The workshop was jointly organized within the project ‘A Change of Direction. Fostering Whistleblowing in Europe in the fight against Corruption’, co-funded by the Internal Security Fund of the European Union, and the GREQAM seminar on ‘Economic Philosophy’.

Speakers:
• Francis Chateauraynaud, Dept. of Sociology; EHESS, Paris
• Katrin Deckert, Dept. of Law and Political Science; University of Paris, Nanterre
• Ashwani Kumar, Centre for Public Policy, Habitat, and Human Development; TISS, Mumbai
• Marc Sangnier, Dept. of Economics; Aix-Marseille University
• Daniele Santoro, Centre for Ethics, Politics, and Society; University of Minho, Portugal
**Workshop on Ethnic and Spatial Confrontations: Incomes, Networks and Terrorism**

November 15, 2017  
Organized by Christophe Muller

The international scientific workshop ‘Ethnic and Spatial Confrontations: Incomes, Networks and Terrorism’, funded by the Agence Nationale de la Recherche in the framework of project TMENA2, was co-ordinated by Christophe Muller for Greqam. Its focus was the spatial and ethnic interactions that emerge when studying income distributions, social networks and violent conflicts.

**Speakers:**  
- Jean-Paul Azam, Toulouse School of Economics  
- Yann Bramoullé, Aix-Marseille University  
- Olga Canto Sanchez, Universidad de Alcalá  
- Florent Dubois, Aix-Marseille University  
- Michel Lubrano, Aix-Marseille University  
- Fabien Moizeau, University of Rennes 1

---

**Health Economics Days - Journées des Économistes de la Santé Français (JESF)**  
November 30-December 1, 2017  
Organized by Alain Paraponaris and Bruno Ventelou

Created nearly 40 years ago by Thérèse Lebrun and Jean-Claude Sailly, the Journées des Economistes de la Santé Français are annual seminars or workshops where all proposals concerning health economics are accepted without thematic limitation. Since 2006, the JESFs have been organized by the CES in partnership with a University or a French Institution.

---

**Banque de France - AMSE Conference on Labor Markets**  
November 30-December 1, 2017

This conference brought together academics and practitioners to discuss the relationship between the labor market and the real estate market, to present work on reservation wages, and to explore the impact of short-time work during the crisis.

**Speakers:**  
- Pierre Cahuc, Ecole Polytechnique  
- Morris Davis, Rutgers University  
- Barbara Petrongolo, Queen Mary University

AMSE GRADUATE SCHOOL

6.1 Key figures
6.2 New urban campus
6.3 The PhD program
6.4 2017, an intensive and eventful year
The AMSE Graduate School is a department of the Faculty of Economics and Management of Aix-Marseille University. It provides world-class programs in Economics, Econometrics and Finance, delivering Magistère, Master and PhD degrees. The academic track is organized along the same lines as the French Grandes Écoles, with a pre-Bachelor 3-year track, and a post-Bachelor 2-year track, leading to a Master’s Degree (bac+5 level in France). The school also has a PhD program for students wanting to follow up with a doctoral thesis.

AMSE Graduate School, with the AMSE Labex, took part in a call for proposals from the national body of university research schools (EUR). AMSE won the tender in late 2017. The implementation of this new project in 2018 and in the years to come will strengthen links between higher education and research.

**IN BRIEF**

**Innovation:** AMSE has a big data program in its training tracks, preparing students for an evolving professional world.

**Proactive training:** courses are supplemented by activities allowing students to express their personalities, and develop their sense of autonomy, as well as their teamwork skills.

**International:** Magistère students spend a semester abroad at the beginning of their second year, an immersion that contributes to developing their foreign language skills and their openness to the world. Our courses are conducted in both French and English, and students are trained in speaking English in public.

**Openness to the business world:** Our pedagogy is based on interaction with the professional world, adding an operational dimension to what we teach.

**Project management:** End-of-study projects allow students to work on real cases piloted by businesses. Students are trained in project management.

**Guidance:** Our team of professors is committed and welcomes contact with students, who can consult them during fixed office hours.

---

In a constantly changing world, businesses increasingly need economists who can understand the environment they operate in and anticipate challenges. At AMSE (Aix-Marseille School of Economics), we train these economics experts. In a digital society, our students’ training in the latest economic analysis and Big Data methods enables them to play a crucial role in their companies by making the best use of the mass of information available to decision-makers.
Since the launch of the school, our aim has been to ensure our program successfully meets job market expectations. The following are some of our achievements.

A constantly evolving Big Data program forms part of the three-year curriculum, ensuring that students develop the extra big data skills that will make the difference on the labor market.

AMSE moved to a new urban campus dedicated to teaching and research in September 2017. This new campus, in the center of Marseille, is intended to strengthen the link between teaching and research. The new premises house all the students and administrative staff of the school, as well as the inter-university library and our research center.

The AMSE PhD program offers two tracks. The classical academic track hosts about 60 candidates and trains post-Master’s students to become full-fledged economists. Recruitment is based on academic excellence of local and external candidates. Several innovations have been implemented to improve the quality of academic placement and to foster industrial placement of PhD graduates: writing and presentation skills training, a job-market program, a 3-month research stay in foreign universities, external evaluation of the job-market paper.

The on-the-job PhD track was launched in 2016. It offers employed economists dedicated distance PhD-level training to help them meet their professional objectives. The track primarily hosts candidates who hold positions in international institutions or firms within the finance industry.

Yannick Flores, AMSE alumni declares: “I decided to join AMSE after the launch of a big data program, which really sealed my choice. The quality of university education coupled with a practical training for big data analysis was my main motivation. AMSE has helped me structure my reasoning to efficiently tackle the problems that I face today. I am currently a data scientist at Digital Virgo. The expertise I acquired, and the quality of the big data courses, promoted my rapid entry to the job market: I was hired even before my final internship ended.”

An end-of-study project in partnership with professional partners, the data science graduation project is defined jointly by the school and a private company or a public institution. It constitutes a major first opportunity for exchange between students, teachers and professionals.
Airbus Helicopters agreed to sign a partnership and to propose a project on which our students could participate in.

Working in collaboration with the business world is a great experience for students. Through this long-term project carried out over nearly six months in conjunction with their studies, students discovered a different, more practical, way to apply their knowledge and skills. End-of-study projects are a true transition to the professional world. Our students worked with professionals to offer them solutions. They had to follow a timeline with numerous meetings where they presented the project in progress. The final meeting took place on the Airbus Helicopters premises, with the students presenting their results to the team.

Pedagogical innovations included switching roles in classrooms, oral training in English, and oral training on economics topics.

Airbus Helicopters chose to entrust AMSE students with a preliminary study to analyze the relevance of launching a specific analytics project. We chose AMSE for its students’ dual competence in statistics/big data and econometrics of its students, which are two compulsory skills to carry out this study. The curiosity, the analytical, problem-solving and autonomy skills of the group of students in charge of the study were a plus in achieving relevant results. In the end, this allowed Airbus Helicopters to put together their project well and to obtain a first estimate of the potential ROI. The AMSE students did a good job. They played an important role in the successful completion of this project, thanks to their skills in quantitative economics. Franck Gasnier, Data Scientist at Airbus Helicopters.

AMSE organized a 2017 career day for its students where professionals, the majority of them AMSE alumni, came to help students explore career opportunities. The professionals’ talks gave students valuable insights to help them make the right choice and better understand the operational reality of business.

Thanks to professionals, students explored careers opportunities. Here are some comments from students who attended the event:

- An informative and engaging day.
- I now have a better perspective on jobs and careers.
- An information-rich and helpful event.
- Great to meet with professionals and discuss their jobs.
- A great way to look at options for the future.

AMSE has its own particular personality. Not only a place of study, it is also a living environment. We listen to our students and encourage interaction that fosters a school spirit. Students play an active role throughout the year. They get involved in events like the annual sporting challenge, career day with many alumni participating, the graduation ceremony, webinars for students with high-level professionals, the spring student associations festival, ongoing help with CVs and cover letters from recruitment professionals for final-year students. A big thank-you to all students, graduates, PhD students, staff, and faculties for their participation and cooperative spirit.

AMSE students won the 2017 Magisterium CUP. They competed against 9 other French Magistères and
defended their place in sporting events (volleyball, football, cheerleading, etc.), cultural tests (general knowledge and debating) and communication (photos and videos posted on social media).

AMSE & YOU, the internal newsletter for students, regularly features one of our alumni, who is invited to share his or her experience at AMSE and on the job market. A research corner section focuses on PhD research theses by AMSE Master graduates.

AMSO’Excited: AMSE’s students’ association was created recently by our students and helps us organize events. It will also facilitate and accelerate the smooth integration of newcomers into our school, as well as supporting students graduating from the programs.

**AMSE "JUNIOR ENTERPRISE"**

Junior Data Analyst is AMSE’s student-run junior enterprise association providing services to the socio-economic world. Its goal is to offer businesses and institutions the best solutions in data analytics. Teaming up with businesses, students can research their needs and offer appropriate, tailor-made solutions. They learn to express themselves and to work on a concrete project.

Permanent researchers (2.1)

Mohammad Abu-Zaineh
Assistant professor, Aix-Marseille University, Faculty of Medicine
◊ Research themes: Econometrics, Health economics, Public economics
◊ PhD: 2008, Aix-Marseille University

Pedro H. Albuquerque
Associate professor, KEDGE Business School
◊ Research themes: Econometrics, Environmental economics, International economics and economic geography, Macroeconomics, Public economics
◊ PhD: 2001, University of Wisconsin-Madison
◊ Editorial activities: Book reviewer for South-Western; Thomson Learning and McGraw-Hill

Marcel Aloy
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Econometrics, Macroeconomics

Dominique Ami
Assistant professor, Aix-Marseille University, Faculty of Sciences
◊ Research themes: Behavioral and experimental economics, Environmental economics, Public economics
◊ PhD: 1991, Aix-Marseille University

Frédéric Aprahamian
Assistant professor, University of Toulon
◊ Research themes: Applied econometrics, Behavioral and experimental economics, Environmental economics
◊ PhD: 1991, Aix-Marseille University

Dominique Augey
Professor, Aix-Marseille University, Faculty of Law and Political Science
◊ Research themes: Economic philosophy, Public economics

Patricia Augier
Professor, Aix-Marseille University, University Institute of Technology (IUT)
Director of Femise scientific committee
◊ Research themes: Development economics, International economics and economic geography
◊ PhD: 1995, Aix-Marseille University

Olivier Bargain
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Member of the Conseil d’Analyse Economique (CAE)
(the Consultative Council of Economic Advisors to the French Prime Minister)
◊ Research themes: Development economics, Labour economics, Public economics
◊ PhD: 2004, École d’économie de Paris
◊ Editorial activities: Associate editor of the Journal of Economic Inequality

Stephen Bazen
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Econometrics, Inequality, Labour economics
◊ PhD: 1988, London School of Economics
◊ Editorial activities: Associate editor of Economics Bulletin

Mohamed Belhaj
Assistant professor, École Centrale de Marseille
◊ Research themes: Finance, Game theory and social networks
◊ PhD: 2005, University of Toulouse 1

Paul Belleflamme
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Industrial organization
◊ PhD: 1997, University of Namur
◊ Editorial activities: Associate editor of Regards Economiques, Co-editor of e-conomics

Nicolas Berman
A*Midex Research Chair, Aix-Marseille University
◊ Research themes: Development economics, International economics and economic geography
◊ PhD: 2008, University Paris 1 Panthéon-Sorbonne
◊ Editorial activities: Associate editor of European Economic Review; Review of International Economics

Sebastian Bervoets
Junior researcher, CNRS
Local coordinator for the European Network EDGE
◊ Research themes: Game theory and social networks, Social choice
◊ PhD: 2005, Aix-Marseille University
Appendices

Raouf Boucekine
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Director, Institute for Advanced Study of Aix-Marseille (IMéRA)
President of ASSET (Association of Southern European Economic Theorists)
◊ Research themes: Development economics, Macroeconomics
◊ PhD: 1993, University Paris 1 Panthéon-Sorbonne

Renaud Boulèès
Associate professor, École Centrale de Marseille
◊ Research themes: Finance, Game theory and social networks
◊ PhD: 2008, Aix-Marseille University

Sylvie Boyer
Assistant professor, Aix-Marseille University, INSERM
◊ Research themes: Development economics, Health economics
◊ PhD: 2010, Aix-Marseille University

Yann Bramoulle
Senior researcher, CNRS
Scientific director of labex AMSE
◊ Research themes: Environmental economics, Game theory and social networks
◊ PhD: 2002, University of Maryland
◊ Editorial activities: Associate editor of Network Science; Social Choice and Welfare

Emilie Caldeira
Invited researcher, CNRS
◊ Research themes: Development economics, Public economics
◊ PhD: 2011, Center for Studies and Research on International Development (CERDI)

Gilles Campagnolo
Senior researcher, CNRS
◊ Research themes: Economic philosophy
◊ PhD: 2001, University Paris 1 Panthéon-Sorbonne
◊ Editorial activities: Co-chief editor of Review of Economic Philosophy

Gilbert Cette
Associate professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Deputy director general for studies and international relations of the Banque de France
◊ Research themes: Economics of growth, Labour economics, Macroeconomics
◊ PhD: 1989, University Paris 1 Panthéon-Sorbonne
◊ Editorial activities: Member of the scientific council of Économie et Statistique, Editorial advisory board of The Open Economics Journal, Editorial board of Review of Income and Wealth, Advisory committee of International Productivity Monitor

Olivier Chanel
Senior researcher, CNRS
◊ Research themes: Econometrics, Environmental economics, Health economics
◊ PhD: 1993, EHESS
◊ Editorial activities: On the editorial council for Revue Française d’Économie

Régis Chenavaz
Associate professor, KEDGE Business School
◊ Research themes: Behavioral and experimental economics, Industrial organization, Macroeconomics
◊ PhD: 2010, Telecom ParisTech

Jernej Copic
Tenure track, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ PhD: 2006, California Institute of Technology

Russell Davidson
Professor, McGill University
◊ Research themes: Econometrics, Social choice
◊ PhD: 1977, University of British Columbia

Bruno Decreuse
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Co-founder and member of scientific committee of research network Search and Matching (SaM)
◊ Research themes: Labour economics, Macroeconomics
◊ PhD: 2000, Aix-Marseille University

Christophe Deissenberg
Emeritus professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Behavioral and experimental economics, Game theory and social networks
Timothée Demont
Assistant professor, Aix-Marseille University, Faculty of Humanities
◊ Research themes: Development economics, Finance
◊ PhD: 2012, University of Namur

Frédéric Deroïan
Senior researcher, CNRS
◊ Research themes: Game theory and social networks
◊ PhD: 2000, Aix-Marseille University

Habiba Djebbari
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, Econometrics
◊ PhD: 2004, University of Maryland

Marion Dovis
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, International economics and economic geography
◊ PhD: 2007, Aix-Marseille University

Fréderic Dufourt
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Financial director of labex AMSE
◊ Research themes: Macroeconomics
◊ PhD: 2001, University Paris 1 Panthéon-Sorbonne

Gilles Dufrénot
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, Macroeconomics
◊ PhD: 1995, University of Paris 12

Giorgio Fabbri
Junior researcher, CNRS
◊ Research themes: Development economics, Macroeconomics, Mathematical economics
◊ PhD: 2006, University “La Sapienza”

Alice Fabre
Assistant professor, Aix-Marseille University, Faculty of Humanities
◊ Research themes: Child Labor, Development economics, Growth, Macroeconomics
◊ PhD: 2000, Aix-Marseille University

Mathieu Faure
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Game theory and social networks
◊ PhD: 2002, University of Marne-la-Vallée

Charles Figuières
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Co-founder and vice-president of the French Association of Environmental and Resources Economists (FAERE)
◊ Research themes: Environmental economics, Game theory, Public economics
◊ PhD: 1999, Aix-Marseille University

Emmanuel Flachaire
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Econometrics, Income distribution
◊ PhD: 1998, Aix-Marseille University
◊ Editorial activities: Associate editor of Annals of Economics and Statistics

Sarah Flèche
Tenure track, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Behavioral and experimental economics, Health economics, Labour economics
◊ PhD: 2014, Paris School of Economics

Gaëtan Fournier
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Game theory and social networks
◊ PhD: 2015, University Paris 1 Panthéon-Sorbonne

Cecilia García-Peñalosa
Senior researcher, CNRS
◊ Research themes: Development economics, Labour economics, Macroeconomics
◊ PhD: 1995, University of Oxford
◊ Editorial activities: Associate editor of the Journal of Economic Inequality; European Economic Review

Pierre Garello
Professor, Aix-Marseille University, Faculty of Law and Political Science
◊ Research themes: Economic philosophy, Finance, Public economics
◊ PhD: 1992, New York University
◊ Editorial activities: Chief editor of Journal des Economistes et des Etudes Humaines, Associate editor of Journal of Private Enterprise
Appendices

Karine Gente
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Head of Master AMSE
◊ Research themes: Macroeconomics
◊ PhD: 2001, Aix-Marseille University

Antoine Gentier
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Finance, Public economics
◊ PhD: 2001, University Paris-Dauphine
◊ Editorial activities: Assistant editor of *Journal des Economistes et des Études Humaines (JEEH)*

Eric Girardin
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Applied Macroeconomics, Money and Finance; China
◊ PhD: 1988, University of Rennes I
◊ Editorial activities: Member of the editorial board of *Journal of Chinese Economic and Business Studies; Asia-Pacific Business Review*

Nicolas Gravel
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Economic philosophy, Public economics, Social choice
◊ PhD: 1993, University of British Columbia
◊ Editorial activities: Member of the editorial committee of *Economie Publique/Public Economics; Indian Growth and Development Review*

Dominique Henriet
Professor, École Centrale de Marseille
◊ Research themes: Finance, Health economics, Insurance economics, Public economics
◊ PhD: 1985, University Paris-Dauphine

Feriel Kandil
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Economic philosophy, Social choice
◊ PhD: 2001, University of Paris-Nanterre

Elisabeth Krecké
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)

André Lapied
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Economic philosophy, Finance
◊ PhD: 1986, Aix-Marseille University

Sébastien Laurent
Professor, Aix-Marseille University, Aix Graduate School of Management (IAE)
◊ Research themes: Financial Econometrics
◊ PhD: 2002, Maastricht University

Didier Lauassel
Emeritus professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Industrial organization, International economics and economic geography, Public economics
◊ PhD: 1974, University of Grenoble 2

Anne Gaëlle Le Coroller
Research fellow, INSERM
◊ Research themes: Health economics

Christelle Lecourt
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Finance
◊ PhD: 2000, University of Lille 1
◊ Editorial activities: Associate editor of *Empirical Economics*

Julien Hanoteau
Associate professor, KEDGE Business School
◊ Research themes: Development economics, Environmental economics, Public choice
◊ PhD: 2004, Institut d’Études Politiques de Paris
Michel Lubrano  
Senior researcher, CNRS
◊ Research themes: Bayesian econometrics, Econometrics of poverty and inequality, Non-parametric econometrics
◊ PhD: 1986, Toulouse

Stéphane Luchini  
Junior researcher, CNRS
◊ Research themes: Behavioral and experimental economics, Econometrics, Environmental economics, Health economics
◊ PhD: 2000, Aix-Marseille University

Antonin Macé  
Junior researcher, CNRS
◊ Research themes: Behavioral and experimental economics, Game theory and social networks, Social choice
◊ PhD: 2014, Ecole Polytechnique

Hervé Magnouloux  
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Economic philosophy
◊ PhD: 1993, Aix-Marseille University

Vélayoudom Marimoutou  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Rector of the Réunion Island
◊ Research themes: Econometrics, Finance

Jean-Paul Moatti  
Professor, Aix-Marseille University
Chairman and executive officer of French National Research Institute for Sustainable Development (IRD)
◊ Research themes: Development economics, Health economics, Impact of climate change
◊ PhD: 1987, University Paris I Panthéon-Sorbonne

Eva Moreno-Galbis  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Labour economics
◊ PhD: 2004, Université Catholique de Louvain

Christophe Muller  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, Econometrics, Public economics
◊ PhD: 1993, Paris School of Economics (EHESS)
◊ Editorial activities: Member of the editor board of The Korean Journal of Economics; Journal des Etudiants en Développement International; Journal of Poverty Alleviation and International Development

Carine Nourry  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Director of the graduate school AMSE
Co-director of AMSE
◊ Research themes: Macroeconomics
◊ PhD: 1999, Aix-Marseille University

Magali Orillard  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Behavioral and experimental economics, Economic philosophy
◊ PhD: 1987, Aix-Marseille University

Fabienne Orsi  
Research fellow, French National Research Institute for Sustainable Development (IRD)
◊ Research themes: Commons economics, Institutional economics
◊ PhD: 2001, Aix-Marseille University

Sandra Palermo  
Assistant professor, Aix-Marseille University

Alain Paraponaris  
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Vice-dean, Faculty of Economics and Management (FEG)
◊ Research themes: Econometrics of survey data, Health economics
◊ PhD: 1998, École des hautes études en sciences sociales
Thierry Paul
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: International economics and economic geography

Anne Péguin-Feissolle
Senior researcher, CNRS
◊ Research themes: Econometrics, Empirical finance, Empirical macroeconomics
◊ PhD: 1980, Aix-Marseille University

Patrick Peretti-Watel
INSERM
◊ Research themes: Health economics

Patrick Pintus
Associate professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Senior research economist at Banque de France
Scientific deputy director in charge of Economics and Business at CNRS
◊ Research themes: Macroeconomics
◊ PhD: 1997, Ecole des hautes études en sciences sociales
◊ Editorial activities: Associate editor of Macroeconomic Dynamics; Annales d’Economie et Statistiques

Céline Poilly
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Macroeconomics
◊ PhD: 2008, University of Cergy-Pontoise

Christel Protière
Research fellow, INSERM
◊ Research themes: Health economics, Mental health, Public health, Psychology
◊ PhD: 2002, Aix-Marseille University

Costin Protopopescu
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Econometrics, Finance, Environmental economics, Game theory and social networks
◊ PhD: 1997, University of Toulouse I

Lorenzo Rotunno
Tenure track, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, International economics
◊ PhD: 2013, The Graduate Institute of International and Development Studies

Frédéric Rychen
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
Member of PR2I Energy operational group (AMU)
◊ Research themes: Environmental economics, Industrial organization, Public economics
◊ PhD: 1998, Aix-Marseille University

Luis Sagaon-Teyssier
Research engineer, IRD
◊ Research themes: Econometrics, Health economics, Labour economics

Marc Sangnier
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Public economics
◊ PhD: 2012, Paris School of Economics (EHESS)

Christian Schluter
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, Econometrics, Labour economics
◊ PhD: 1997, London School of Economics

Thomas Seegmuller
Senior researcher, CNRS
Co-director of AMSE
◊ Research themes: Environmental economics, Macroeconomics
◊ PhD: 2001, University Louis Pasteur

Valérie Seror
Research fellow, INSERM
◊ Research themes: Health economics
◊ PhD: 1992, University Paris 1 Panthéon-Sorbonne
Appendices

Patrick Sevestre
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Applied microeconometrics
◊ PhD: 1984, University Paris 1 Panthéon-Sorbonne
◊ Editorial activities: Member of the editorial board of Review of Agricultural and Environmental Studies; Revue d’Economie Politique; Economie et Prévision

Antoine Soubeyran
Emeritus professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Contract theory, Environmental economics, Human dynamics in psychology and behavioral sciences, Variational analysis and optimizing algorithms in mathematics
◊ PhD: 1975, Aix-Marseille University

Hubert Stahn
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Environmental economics, Game theory and social networks, Public economics
◊ PhD: 1991, University Louis Pasteur

Eric Strobl
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Climate economics and environmental economics, Development economics
◊ PhD: 1997, Trinity College Dublin

Miriam Teschl
Assistant professor, EHESS
◊ Research themes: Economic philosophy

Agnès Tomini
Junior researcher, CNRS
◊ Research themes: Environmental economics, Public economics
◊ PhD: 2009, Aix-Marseille University

Richard Topol
Emeritus Senior researcher, CNRS
◊ Research themes: Cognitive economics, Financial assets pricing
◊ PhD: 1977, University of Paris

Gilbert Tosi
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Economic philosophy
◊ PhD: 1983, Aix-Marseille University

Alain Trannoy
Professor, EHESS
◊ Research themes: Economic philosophy, Public economics, Social choice
◊ PhD: 1987, University of Rennes
◊ Editorial activities: Associate editor of Journal of Economic Inequality

Federico Trionfetti
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: International economics and economic geography
◊ PhD: 1996, The Graduate Institute of International and Development Studies

Tanguy van Ypersele
Professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: International economics and economic geography, Public economics
◊ PhD: 1996, Université Catholique de Louvain

Alain Venditti
Senior researcher, CNRS
Director of AMSE
◊ Research themes: Macroeconomics
◊ PhD: 1994, Aix-Marseille University
◊ Editorial activities: Member of the editorial board of Revue d’Economie Politique; International Journal of Economic Theory; Portuguese Economic Journal

Bruno Ventelou
Senior researcher, CNRS
◊ Research themes: Health economics, Macroeconomics
◊ PhD: 1995, Paris School of Economics (EHESS)

Roberta Ziparo
Assistant professor, Aix-Marseille University, Faculty of Economics and Management (FEG)
◊ Research themes: Development economics, Health economics, Labour economics
◊ PhD: 2013, University of Namur
PhD students (2.2)

Vadim Aevskiy, 1st year - ‘On the job’
“Term Structure of Interest Rates Modelling: Implications for Developing Countries, Currency Area and Exchange Rate Target Zone”
Under the direction of: Eric Girardin

Laila Ait Bihi Ouali, 3rd year
“Essays on Behavioral Responses to Taxation Schemes and Reforms”
Under the direction of: Olivier Bargain

Fadia Al Hajj, 5th year
“Monetary Policies and Exchange Rate Regimes in Sub-Saharan Africa”
Under the direction of: Gilles Dufrenot

Marie-Christine Apedo-Amah, 5th year
« Modélisation et analyse de l’impact des ONGs dans les pays en développement »
Under the direction of: Cecilia Garcia-Peñalosa

Sameera Awawda, 3rd year
Under the direction of: Mohammad Abu-Zaineh, Bruno Ventelou

Kathia Bahloul Zekkari, 1st year
“Bubbles, Unemployment and Economic Activity”
Under the direction of: Thomas Seegmuller

Anwesha Banerjee, 3rd year
“Beliefs and Contribution to a Public Good”
Under the direction of: Yann Bramoullé, Nicolas Gravel

Victorien Barbet, 4th year
“Solidarity and Learning in Short Food Chains: Building Socio-Economic Indicators”
Under the direction of: Juliette Rouchier

Anna Belianska, 1st year
“Uncertainty for the Firms’ Perspective”
Under the direction of: Céline Poilly

Amal Ben Ghanem, 4th year
« Analyse de la relation entre la soutenabilité des finances publiques et la croissance économique dans les pays africains »
Under the direction of: Raouf Boucekine

Aymen Ben Romdhane Hajri, 5th year - joint supervision with ESSEC of Tunis
« Stabilité structurelle et pouvoirs explicatif et prédicatif du flux d’ordre et des fondamentaux macro-économiques de la dynamique et de la volatilité du taux de change. Cas des taux euro-dollar américain et yuan chinois - dollar américain »
Under the direction of: Eric Girardin, Mohamed Jelassi

Stéphane Benveniste, 2nd year
“Three Essays on Inequality of Opportunities in France and Europe”
Under the direction of: Alain Trannoy

Majda Benzidia, 4th year
“Three Essays in Economics of Education: An Econometric Approach”
Under the direction of: Michel Lubrano

Guillaume Bérard, 2nd year
“Local Taxes, Housing Market, and Behaviour of Local Councilors”
Under the direction of: Alain Trannoy

Laurène Bocognano, 2nd year
“Determinants of Educational and Professional Investments”
Under the direction of: Bruno Decreuse

Aissata Boubacar Moumouni, 3rd year
“SMES Financing in Paca Region”
Under the direction of: Mohamed Belhaj, Velayoudom Marimoutou

Houda Boubaker, 6th year - joint supervision with University of Tunis
“DSGE Modelling of Monetary Policy and Emerging Markets”
Under the direction of: Rached Bouaziz, Eric Girardin

Barbara Castillo Rico, 2nd year - in partnership with the Bank of France
“Wealth, Indebtedness and Social Mobility: The Role of Housing and Credit Markets”
Under the direction of: Frédérique Savignac, Alain Trannoy

Victor Champonnois, 3rd year
“Empirical and Theoretical Issues in Non-Market Valuation”
Under the direction of: Olivier Chanel
Appendices

Francesco Maria Cimmino, 2nd year - ‘On the job’
« Valorisation de la souplesse énergétique »
Under the direction of: Eric Girardin, Costin Protopopescu

Vera Danilina, 4th year
« Essais sur la régulation environnementale »
Under the direction of: Federico Trionfetti

Loann Desboulets, 1st year
“Non-Linear Method for Model Selection and Estimation”
Under the direction of: Emmanuel Flachaire, Costin Protopopescu

Nicolas Destrée, 4th year
“Remittances and Economic Activity in Developing Countries”
Under the direction of: Karine Gente, Carine Nourry

Florent Dubois, 6th year
“Dynamic Models of Segregation”
Under the direction of: Christophe Muller

Nicolas End, 2nd year - ‘On the job’
“Fiscal Credibility”
Under the direction of: Karine Gente, Thomas Seegmuller

Audrey Etienne, 4th year
“Four Essays on Workers Self-Selection in Organisations”
Under the direction of: Olivier Bargain

João V. Ferreira, 5th year
“Conflicted Individuals: Essays on the Behavioral Implications of Multiple Preferences”
Under the direction of: Nicolas Gravel

Edwin Fourrier-Nicolai, 3rd year
“The Dynamics of Poverty: Essays in Bayesian Econometrics”
Under the direction of: Michel Lubrano

Estefania Galvan, 2nd year
“Gender Identity, Relative Earnings within Household and Labour Market Outcomes”
Under the direction of: Cecilia Garcia-Peñalosa, Christian Schluter

Ulises Genis Cuevas, 3rd year
“Are Mexican Water Utilities Minimizing Their Cost? Non-Parametric Evidence”
Under the direction of: Nicolas Gravel

Kévin Genna, 1st year
“Structural Change and Endogenous Growth, Applied to Environment”
Under the direction of: Raouf Boucekkine, Alain Venditti

Daniil Gorbatenko, 5th year
“Can the Austian Business Cycle Theory Account for the Financial Crisis of 2008-2010?”
Under the direction of: Pierre Garello

Ilia Goureaf, 4th year
“Non Take-Up of Social Benefits”
Under the direction of: Thibault Gajdos

Maxime Gueuder, 6th year
“Four Essays of Inequality and Macroeconomic Instability”
Under the direction of: Alan Kirman

Joël Guglietta, 1st year - ‘On the job’
“An Empirical and Theoretical Framework to Better Understand and Exploit Market Inefficiencies”
Under the direction of: Sébastien Laurent, Christelle Lecourt

Florian Guibelin, 1st year
“From an Unemployment Allocation to a Basic Income”
Under the direction of: Alain Trannoy

Cyrine Hannafi, 5th year
“The Poverty-Economic Growth-Children Health Triangle”
Under the direction of: Christophe Muller

Yezid Hernandez Luna, 4th year
“International Trade and Labor Markets: Evidence from Columbia and Theory”
Under the direction of: Federico Trionfetti

Samuel Kembou Nzale, 3rd year
“Essays on the Economics of Personalized Medicine”
Under the direction of: Izabela Jelovac, Bruno Ventelou

Lisa Kerdelhué, 2nd year - in partnership with the Bank of France
« L’impact des réformes structurelles à court et long terme »
Under the direction of: Frédéric Dufourt

Guillaume A. Khayat, 5th year
“Three Essays in Monetary Policy”
Under the direction of: Gilles Dufrénot
Erik Lamontagne, 2nd year - ‘On the job’
« Analyses économiques de la riposte au VIH : recueil de trois études »
Under the direction of: Bruno Ventelou

Tanguy Le Fur, 3rd year
“Health, Work and Endogenous Growth”
Under the direction of: Alain Trannoy

Edward Levavasseur, 3rd year
“Social Mobility”
Under the direction of: Nicolas Gravel, Patrick Moyes

Jordan Loper, 2nd year
“Migration and Women’s Empowerment: the Indonesian Case”
Under the direction of: Christian Schluter, Roberta Ziparo

Khalid Maman Waziri, 4th year
“Do We Earn What We Deserve? - A Stochastic Frontier Approach to Investigating Labor Underpayment”
Under the direction of: Stephen Bazen

Solène Masson, 3rd year
“Exploring the Links Between Soy Crop and Deforestation”
Under the direction of: Olivier Chanel, Philippe Delacote

Pavel Molchanov, 1st year
“Three Applications of Monopolistic Competition to Demand Uncertainty and Economic Growth”
Under the direction of: Federico Trionfetti

Pauline Morault, 5th year
« Elites, réseaux et développement. Stratégies de protection des privilèges : le cas de Madagascar »
Under the direction of: Yann Bramouillé

Armel Ngami, 2nd year
“Pollution, Longevity, Growth and Health Inequalities”
Under the direction of: Thomas Seegmuller

Ulrich Nguemdjo-Kamguem, 2nd year
« Liens entre pauvreté et adaptation au changement climatique : une bidirectionnalité étudiée à partir des données de l’observatoire démographique de santé à Niakho »
Under the direction of: Vianney Delauney, Bruno Ventelou

Charles O’Donnell, 3rd year - in partnership with the Bank of France
“Central Banking and Financial Market Structures: From Collateral Frameworks to Financial Stability”
Under the direction of: Yann Bramouillé, Patrick Pintus

Adrien Pacifico, 4th year
« Économie de la taxation et microsimulation »
Under the direction of: Olivier Bargain, Alain Trannoy

Anne-Charlotte Paret, 4th year - in partnership with AMUNDI
“Fiscal Vulnerability and Sustainability Issues in Emerging Market Countries”
Under the direction of: Gilles Dufrénot

Justine Pedrono, 5th year
« Stabilité bancaire et diversification monétaire »
Under the direction of: Patrick Pintus

Andrea Carolina Pérez Useche, 2nd year
“Are Household Formation Processes Assortative?”
Under the direction of: Nicolas Gravel

Océane Piétri, 2nd year
“Distributional Effects of Macroeconomic Policy”
Under the direction of: Frédéric Dufourt

Alberto Prati, 2nd year
“Happiness and Time Perception”
Under the direction of: Olivier Chanel, Stéphane Luchini

Morgan Raux, 2nd year
“Migration and Labor Market”
Under the direction of: Bruno Decreuse, Marc Sangnier

François Reynaud, 4th year
“Randomized Controlled Trials Applied to Economics of Discriminations”
Under the direction of: Bruno Decreuse, Marc Sangnier

Meryem Rhouzlane, 1st year
“New Macroeconomic Models of Abenomics in Japan”
Under the direction of: Gilles Dufrénot

Stéphane Roume, 6th year
« La notion de progrès à travers une distinction entre éthique et morale »
Under the direction of: Pierre Garello
Clémentine Sadania, 5th year
“Women’s Empowerment in the Developing World: Three Essays on Egyptian Households”
Under the direction of: Patricia Augier, Marion Dovis

Gady Sairovici, 2nd year - ‘On the job’
“Essays in Development Economics and Social Policy”
Under the direction of: Habiba Djebbari, Roberta Ziparo

Fatemeh Salimi Namin, 3rd year
“Optimal Exchange Rate Policies for Asian Countries in the New Millennium”
Under the direction of: Eric Girardin

Damien Sans, 5th year
« Modélisation des politiques de gestion optimale de la pollution en présence d’éco-industrie »
Under the direction of: Hubert Stahn

Manoj Sasikumar, 3rd year
“The Value of Specialist Care: Infectious Disease Specialty”
Under the direction of: Tanguy van Ypersele

Régis Sawadogo, 6th year
“State Capacity, Corruption and Economic Growth”
Under the direction of: Raouf Boucekkine, Cecilia Garcia-Peñalosa

Rashid Sbia, 1st year - ‘On the job’
“Three Essays on Fiscal Policy in Oil-exporting Countries”
Under the direction of: Pierre Garello

Rafik Selim, 1st year - ‘On the job’
“Monetary Policy in the Arab Countries”
Under the direction of: Frédéric Dufourt, Karine Gente

Laura Sénécal, 1st year
“Uncertainty Shocks and Policy Analysis”
Under the direction of: Frédéric Dufourt, Céline Poilly

Sauman Singh, 5th year
“Analysis of Market Entry and Operation Strategies of the Indian Pharmaceutical Firms, and Mechanism of Negotiation of International Funding Bodies to Increase Access to Antiretroviral and Antimalarial Drugs in Sub Saharan Africa”
Under the direction of: Fabienne Orsi

Manel Soury, 5th year
“Dynamic and Multivariate Copula Models with Applications”
Under the direction of: Velayoudom Marimoutou

Laure Thierry de Ville d’Avray, 4th year
“Identification and Economic Valuation Ecosystem Services Provided by Coralligenous Habitats”
Under the direction of: Dominique Ami, Anne Chenuil, Jean-Pierre Féral

Etienne Vaccaro Grange, 2nd year
“Quantitative Easing, the Term Structure of Interest Rates and the Macroeconomy”
Under the direction of: Florian Pelgrin, Céline Poilly

Mathilde Valero, 3rd year
“Three Essays on Gender and Economic Development”
Under the direction of: Christophe Muller

Rémi Vivès, 3rd year
“News and Sentiments in Business-Cycle Models”
Under the direction of: Frédéric Dufourt, Alain Venditti

Lara Vivian, 4th year
“Cross-Country Determinants of Earnings Inequality”
Under the direction of: Cecilia Garcia-Peñalosa

Claudia Wiese, 1st year
“The Impact of Poor Housing Conditions and Neighbourhood Effects on Households’ Wellbeing in Peru”
Under the direction of: Habiba Djebbari

Taoufik Zrikem, 6th year
« Corrélation entre paiements informels et efficience du système santé dans les pays en voie de développement »
Under the direction of: Pierre Garello
Thesis defences (2.2)

Fadia Al Hajj, 5th year
September 8, 2017
“Monetary Policies and Exchange Rate Regimes in Sub-Saharan Africa”
Under the direction of: Gilles Dufrénot

Marie-Christine Apedo-Amah, 5th year
September 21, 2017
“Modélisation et analyse de l’impact des ONGs dans les pays en développement”
Under the direction of: Cecilia Garcia-Peñalosa

Majda Benzidia, 4th year
December 4, 2017
“Three Essays in Economics of Education: An Econometric Approach”
Under the direction of: Michel Lubrano

Vera Danilina, 4th year
December 1, 2017
“Essais sur la régulation environnementale”
Under the direction of: Federico Trionfetti

Florent Dubois, 6th year
November 15, 2017
“Dynamic Models of Segregation”
Under the direction of: Christophe Muller

João V. Ferreira, 5th year
October 2, 2017
“Conflicted Individuals: Essays on the Behavioral Implications of Multiple Preferences”
Under the direction of: Nicolas Gravel

Maxime Gueuder, 6th year
December 22, 2017
“Four Essays of Inequality and Macroeconomic Instability”
Under the direction of: Alan Kirman

Guillaume A. Khayat, 5th year
September 6, 2017
“Three Essays in Monetary Policy”
Under the direction of: Gilles Dufrénot

Anne-Charlotte Paret, 4th year - in partnership with AMUNDI
June 14, 2017
“Fiscal Vulnerability and Sustainability Issues in Emerging Market Countries”
Under the direction of: Gilles Dufrénot

Justine Pedrono, 5th year
October 2, 2017
“Stabilité bancaire et diversification monétaire”
Under the direction of: Patrick Pintus

Stéphane Roume, 6th year
December 2, 2017
“La notion de progrès à travers une distinction entre éthique et morale”
Under the direction of: Pierre Garelo

Damien Sans, 5th year
November 20, 2017
“Modélisation des politiques de gestion optimale de la pollution en présence d’éco-industrie”
Under the direction of: Hubert Stahn

Régis Sawadogo, 6th year
December 15, 2017
“State Capacity, Corruption and Economic Growth”
Under the direction of: Raouf Boucekkine, Cecilia Garcia-Peñalosa
Post-doctoral fellows (2.2)

Mihir Bhattacharya, since 2015
◊ Research themes: Decision theory, Political economy, Social choice theory

Ugo Bolletta, since 2016
◊ Research themes: Applied theory, Microeconomic theory, Social economic networks
◊ PhD: 2016, Università di Bologna “Social Influence in Networks” Under the direction of: Giulio Zanella

Marwân-al-Qays Bousmah, since 2016
◊ Research themes: Development economics, Health economics, Microeconometrics, Population economics.
◊ PhD: 2015, Aix-Marseille University “Essays on the Relationship Between Fertility and Child Mortality” Under the direction of: Raouf Boucekkine, Bruno Ventelou

Zouheir El-Sahli, 2016-2017
◊ Research themes: International economics and economic geography, Labour economics
◊ PhD: 2013, University of Nottingham “Estimating the Effects of Containerisation on International Trade” Under the direction of: Daniel Bernhofen, Richard Kneller

Kenan Huremovic, 2014-2017
◊ Research themes: Applied microeconomic theory, Social and economic networks
◊ PhD: 2014, European University Institute “Essays in Networks and Applied Microeconomic Theory” Under the direction of: Piero Gottardi, Fernando Vega-Redondo

Manohar Kumar, since 2017
◊ Research themes: Applied ethics, Philosophy of social sciences
◊ PhD: 2013, Luiss Guido Carli “For whom the Whistle Blows? Secrecy, Civil Disobedience, and Democratic Accountability” Under the direction of: Daniele Santoro

Matt Leduc, since 2017
◊ Research themes: Contract theory, Game theory, Microeconomics, Social and economic networks
◊ PhD: 2014, Stanford University “Mean-Field Models in Network Game Theory” Under the direction of: Matthew O. Jackson, Ramesh Johari

Yang Lu, 2015-2017
◊ Research theme: Econometrics
◊ PhD: 2015, CREST and Paris-Dauphine University “Bivariate Survival Analysis with Latent Factors: Theory and Applications to Mortality and Long-Term Care” Under the direction of: Christian Courieroux

Aidas Masiliunas, since 2015
◊ Research themes: Behavioural game theory, Experimental economics
◊ PhD: 2015, Maastricht University “Feedback Manipulation and Learning in Games” Under the direction of: Friederike Mengel, Philipp Reiss, Arno Riedl

Ali Ozkes, since 2015
◊ Research themes: Behavioral game theory, Experimental economics, Political science, Social choice theory
◊ PhD: 2014, Ecole Polytechnique “Essays on Hyper-Preferences, Polarization, and Information Aggregation” Under the direction of: Yukio Koriyama, Remzi Sanver

Pierre Pecher, since 2016
◊ Research themes: Institutions and growth, Regional economic activity, Rent-seeking and lobbying
◊ PhD: 2016, Université Catholique de Louvain “Ethnic Divisions and Economic Performance” Under the direction of: David de la Croix

André Pozzetti, since 2016
◊ Research themes: Industrial valorization, Performance contracts, Risk/cost/business modelling and analysis
◊ PhD: 2017, RMIT University Australia “A Decision-Support Tool for Military Aerospace Performance-Based Contracting” Under the direction of: Cees Bil
◊ PhD: 2015, University of Valenciennes and Hainaut-Cambresis “A Decision-Support Methodology for the Optimization of Aeronautic Performance-Based Services” Under the direction of: Abdelhakim Artiba
Grigoris Spanos, since 2014
◊ Research themes: International trade, Labor economics, Organizational economics, Urban economics
◊ PhD: 2014, University of Toronto
“Three Essays on Firm Organization and Trade”
Under the direction of: Kunal Dasgupta, Gilles Duranton, Peter Morrow

Carole Treibich, 2014-2017
◊ Research themes: Behavioral economics, Development economics, Econometrics, Evaluation of public policy, Health economics, Survey design
◊ PhD: 2014, EHESS and Erasmus University Rotterdam
“Four Essays on the Economics of Road Risks in India”
Under the direction of: Pierre-Yves Geoffard, Michael Grimm

Raghul S Venkatesh, since 2017
◊ Research themes: Game theory and social networks
◊ PhD: 2017, University of Warwick
“Communication and Commitment with Resource Constraints in Organization”
Under the direction of: Francesco Squintani

Guillaume Wilemme, since 2017
◊ Research themes: Economic theory, Labor economics, Structural econometrics
◊ PhD: 2016, Sciences Po Paris
“Searching on the Labor Market: Theoretical Implications and Empirical Evidence”
Under the direction of: Fabien Postel-Vinay, Etienne Wasmer

Anastasia Zhutova, 2016-2017
◊ Research themes: Macroeconomic theory, Monetary economics, Structural economic issues
◊ PhD: 2016, Paris School of Economics
Under the direction of: Florin Bilbiie
Visiting and mobility (2.3)

Visits of co-author Researchers

◊ Carine Nourry, AMSE
  Leonor Modesto, Universidade Católica Portuguesa
  January-February 2017

◊ Carine Nourry, AMSE
  Leonor Modesto, Universidade Católica Portuguesa
  April 2017

◊ Antoine Soubeyran, AMSE
  Boris Mordukhovich, Wayne State University
  May 2017

◊ Alice Fabre, AMSE
  Christian Zimmermann, Federal Reserve Bank of St. Louis
  May-June 2017

◊ Bruno Decreuse, AMSE
  Jim Albrecht and Susan Vroman, Georgetown University
  June 2017

◊ Alain Venditti, AMSE: Kazuo Nishimura, Kobe University
  July 2017

◊ Giorgio Fabbri, AMSE
  Silvia Faggian, Università “Ca’ Foscari” Venezia
  July-August 2017

◊ Cecilia Garcia-Peñalosa, AMSE
  Jakob Madsen, Monash University
  October 2017

Post-doctoral fellows

◊ Mihir Bhattacharya, AMSE
  Prakriti Joshi, Indian Institute of Technology
  June-July 2017

◊ Mihir Bhattacharya, AMSE
  Saptarshi Mukherjee, Indian Institute of Science Education and Research
  Ruhi Sonal, Indian Institute of Technology
  June-July 2017

Visits by AMSE member Researchers

◊ Renaud Boulès, AMSE
  Michael Dorsch, Central European University
  February 2017

◊ Marc Sangnier, AMSE
  Thomas Bourveau, Hong Kong University of Science and Technology
  March 2017

◊ Patrick Sevestre, AMSE
  Nicoletta Berardi, Banque de France
  March 2017

◊ Philippe Bertrand, AMSE
  Jean-Luc Prigent, University of Cergy-Pontoise
  April 2017

◊ Philippe Bertrand, AMSE
  Rudi Zagst, Technical University of Munich
  April 2017

◊ Gilles Campagnolo, AMSE
  Reinhard Neck, University of Klagenfurt
  April-May 2017

◊ Didier Laussel, AMSE
  Joana Resende, University of Porto
  May 2017

◊ Philippe Bertrand, AMSE
  Jean-Luc Prigent, University of Cergy-Pontoise
  October 2017

◊ Patrick Sevestre, AMSE
  Nicoletta Berardi, Banque de France
  Sarah Guillou, OFCE
  Elisabeth Kremp, INSEE
  July 2017

◊ Timothée Demont, AMSE
  Jean-Marie Baland, University of Namur
  November 2017
### Post-doctoral fellows

ϕ Grigorios Spanos, AMSE  
Emeric Henry, Sciences Po  
Joan Monras, CEMFI  
September-October 2017

ϕ Ugo Bolletta, AMSE  
Paolo Pin, University of Bocconi  
October 2017

### PhD students

ϕ Samuel Kembou-Nzale, AMSE  
The Dartmouth Institute  
January 2017

ϕ François Reynaud, AMSE  
Simon Fraser University  
January-February 2017

ϕ Rémi Vivès, AMSE  
Konstanz University  
April-May 2017

ϕ Nicolas Destrée, AMSE  
University of Kent  
April-May 2017

ϕ Clémentine Sadania, AMSE  
Economic Research Forum  
July-August 2017

ϕ Edward Levavasseur, AMSE  
Luxembourg Institute of Socio-Economic Research  
September-November 2017

ϕ Pauline Morault, AMSE  
Cambridge University  
January-March 2017

ϕ Rémi Vivès, AMSE  
University of Zurich  
November-December 2017

### AMSE researcher long visits

ϕ Giorgio Fabbri, AMSE  
Katheline Schubert, PSE-École d’économie de Paris  
January-November 2017

ϕ Eva Moreno-Galbis, AMSE  
Matthew O. Jackson, Stanford University  
April-July 2017

### AMSE post-doctoral fellow long visits

ϕ Ali Ozkes, AMSE  
Colin Camerer, California Institute of Technology  
March-June 2017

### AMSE PhD long visits

ϕ Khalid Maman Waziri, AMSE  
Binghamton University  
January-April 2017

ϕ Clémentine Sadania, AMSE  
University of British Columbia  
January-April 2017

ϕ Victor Champonnois, AMSE  
Umea University  
March-June 2017

ϕ Victor Champonnois, AMSE  
Swedish University of Agricultural Sciences  
April-July 2017

ϕ Laila Aït-Bihi-Ouali, AMSE  
London School of Economics  
April-August 2017

ϕ Victorien Barbet, AMSE  
James Hutton Institute  
June-November 2017

Books (4)

Appendices

Working papers (3.1)

2017-01
Renaud Bourlès, Anastasia Cozarenco
“Entrepreneurial Motivation and Business Performance: Evidence from a French Microfinance Institution”

2017-02
Mathieu Faure, Nicolas Gravel
“Equality among Unequals”

2017-03
Nicolas Gravel, Brice Magdalou, Patrick Moyes
“Hammond’s Equity Principle and the Measurement of Ordinal Inequalities”

2017-04
Giorgio Fabbri, Francesco Russo
“HJB Equations in Infinite Dimension and Optimal Control of Stochastic Evolution Equations via Generalized Fukushima Decomposition”

2017-05
Brice Fabre, Marc Sangnier
“What Motivates French Pork: Political Career Concerns or Private Connections?”

2017-06
Victorien Barbet, Renaud Bourlès, Juliette Rouchier
“Informal Risk-Sharing Cooperatives: The Effect of Learning and Other-Regarding Preferences”

2017-07
James Albrecht, Bruno Decreuse, Susan Vroman
“Directed Search with Phantom Vacancies”

2017-08
Yukio Koriyama, Ali Ozkes

2017-09
Emmanuelle Augeraud-Véron, Giorgio Fabbri, Kathline Schubert
“The Value of Biodiversity as an Insurance Device”

2017-10
Edwin Fourrier-Nicolai, Michel Lubrano
“Bayesian Inference for TIP Curves: An Application to Child Poverty in Germany”

2017-11
Paolo Melindi Ghidi, Thomas Seegmuller
“The Love for Children Hypothesis and the Multiplicity of Fertility Rates”

2017-12
Anne-Sarah Chiambretto, Hubert Stahn
“Voluntary Management of Fisheries under an Uncertain Background Legislative Threat”

2017-13
Paul Belleflamme, Wing Man Wynne Lam, Wouter Vergote
“Price Discrimination and Dispersion under Asymmetric Profiling of Consumers”

2017-14
Antoine Bonleu
“Sun, Regulation and Local Social Networks”

2017-15
Christophe Muller
“Ethnic Horizontal Inequity in Indonesia”

2017-16
Tae-Hwan Kim, Christophe Muller
“A Robust Test of Exogeneity Based on Quantile Regressions”

2017-17
Kenza Benhima, Céline Poilly
“Do Misperceptions about Demand Matter? Theory and Evidence”

2017-18
Florent Dubois, Christophe Muller
“Segregation and the Perception of the Minority”

2017-19
Florent Dubois, Christophe Muller

2017-20
Florent Dubois
“The Sources of Segregation”

2017-21
Zouheir El-Sahli
“The Role of Inbound Tourist Flows in Promoting Exports”

2017-22
Clémantine Sadania
“Working and Women’s Empowerment in the Egyptian Household: The Type of Work and Location Matter”
Appendices

2017-23

Seminars (5.1)

**Amse-Greqam Seminar (22)**

January 9, 2017  
*Daniel R. LaFave*, Colby College  
*A Are Rural Markets Complete? Prices, Profits, and Recursion* (joint with Evan Peet and Duncan Thomas)

February 27, 2017  
*Micahael Devereux*, University of British Columbia  
*Real Exchange Rates and Sectoral Productivity in the Eurozone*

March 6, 2017  
*Petros Milionis*, University of Groningen  
*The International Epidemiological Transition and the Education Gender Gap*

March 13, 2017  
*Frédéric Robert-Nicoud*, University of Lausanne  
*The Optimal Distribution of Population Across Cities* (joint with David Albouy, Kristian Behrens and Nathan Seegeert)

March 20, 2017  
*Luca Gambetti*, Universiad Autonoma Barcelona  
*News-Driven Uncertainty and Economic Fluctuations* (joint with Mario Forni and Luca Sala)

March 27, 2017  
*Geir B. Asheim*, University of Oslo  
*The Necessity of Time Inconsistency for Intergenerational equity* (joint with Tapan Mitra)

April 3, 2017  
*Amrita Dhillon*, King’s College London  
*Electoral Competition and Corruption: Theory and Evidence from India*

May 22, 2017  
*Costas Meghir*, Yale University  
*Marriage, Labor Supply and the Social Safety Net* (joint with Hamish Low, Luigi Pistaferri and Alessandra Voena)

May 29, 2017  
*Jean-Marc Bourgeon*, Agro Paris Tech  
*Food Trade, Biodiversity Effects and Price Volatility* (joint with Cecilia Bellora)

June 19, 2017  
*Yves Zenou*, Monash University  
*R&D Networks: Theory, Empirics and Policy Implications*

June 26, 2017  
*Olivier Armantier*, Federal Reserve Bank of New York  
*Insurance and Portfolio Decisions: A Wealth Effect Puzzle* (joint with Jérôme Foncel and Nicolas Treich)

September 11, 2017  
*Jean Imbs*, Paris School of Economics  
*Fundamental Moments* (joint with Laurent Pauwels)

September 25, 2017  
*Paul Pezanis-Christou*, University of Adelaide  
*A Naive Approach to Bidding* (joint with Hang Wu)

October 2, 2017  
*David de la Croix*, Université Catholique de Louvain  
*Childbearing Postponement, its Option Value, and the Biological Clock* (joint with Aude Pomeret)

October 9, 2017  
*Brian McCaig*, Wilfrid Laurier University  
*Export Markets and Labor Allocation in a Low-Income Country* (joint with Nina Pavcnik)

October 16, 2017  
*Eric Chaney*, Harvard University  
*Scientific Revolution: Institutions and the Intellectual Rise of the Western World*

November 6, 2017  
*Michel De Vroey*, Université Catholique de Louvain  
*The Lucas/Kydland and Prescott Transformation of Macroeconomics*

November 13, 2017  
*Robert Sauer*, Royal Holloway University of London  
*The Dynamics of Domestic Violence: Learning about the Match*

November 20, 2017  
*Emeric Henry*, Sciences Po  
*Facts, Alternative Facts, and Fact Checking in Times of Post-Truth Politics*

November 27, 2017  
*Ariell Reshef*, Paris School of Economics  
*Techies, Trade, and Skill-Biased Productivity: Firm Level Evidence from France* (joint with James Harrigan and Farid Toubal)

December 4, 2017  
*Petter Lundborg*, Lund University  
*Long-Run Effects of Free School Lunches: Evidence from Administrative Data*
December 11, 2017  
**Roberto Galbiati**, Sciences Po  
“Voters’ Response to Public Policies: Evidence from a Natural Experiment”

**Development and International Economics Seminars (9)**

February 10, 2017

“Childlessness, Celibacy, and Survival of the Richest in Pre-Industrial England”

December 21, 2017
Jean Boutier, EHESS
“Intergenerational Mobility: the Florentine Families”

Economics and History Seminars (3)

Finance Seminars (8)

February 14, 2017
Marjan Wauters, KU Leuven
“The Response of Multinationals’ Foreign Exchange Rate Exposure to Macroeconomic News” (joint with Kris Boudt, Christopher J. Neely and Piet Sercu)

March 21, 2017
Laurent Ferrara, Banque de France
“Common Factors of Commodity Prices” (joint with Simona Delle Chiaie and Domenico Giannone)

April 25, 2017
Guglielmo Maria Caporale, Brunel University
“Exchange Rates and Macro News in Emerging Markets” (joint with Fabio Spagnolo and Nicola Spagnolo)
May 9, 2017
Henri Fraisse, Banque de France
“The Real Effects of Bank Capital Requirements” (joint with Mathias Lé and David Thesmar)

June 6, 2017
Leonardo Iania, Université Catholique de Louvain
“The Response of Euro Area Sovereign Spreads to the ECB Unconventional Monetary Policies” (joint with Hans Dewachter and Jean-Charles Wijnandts)

September 12, 2017
Paul Mizen, University of Nottingham
“The Divergence of Bank Lending Rates from Policy Rates After the Financial Crisis: The Role of Bank Funding Costs” (joint with Anamaria Illesa and Marco Lombardia)

November 14, 2017
Serge Darolles, Paris Dauphine University
“Permanent Capital, Permanent Struggle? New Evidence from Listed Private Equity” (joint with Sara Aïn Tommar)

November 28, 2017
Riccardo Calcagno, EMLYON Business School
“Takeover Duration and Negotiation Process” (joint with Eric de Bodt and Irina Demidova)

Interaction Seminars (9)

March 16, 2017
Paolo Zacchia, IMT Institute for Advanced Studies
“Identification of Social Effects under Dependence on Simultaneous Unobservables” (joint with Santiago Pereda Fernández)

March 30, 2017
Leonie Baumann, University of Cambridge
“Time Allocation in Friendship Networks”

May 4, 2017
Matthew Elliott, Cambridge University
(1) “Decentralized Bargaining: Efficiency and the Core”
(2) “Commitment and (In)Efficiency: A Bargaining Experiment”

May 18, 2017
Nizar Allouch, University of Kent
“Aggregation in Networks”

September 21, 2017
Bary S. R. Pradelski, ETH Zurich
“The Assignment Game: Decentralized Dynamics, Rate of Convergence and the Value of Information”

October 5, 2017
Kirill Pogorelskiy, University of Warwick
“News Sharing and Voting on Social Networks: An Experimental Study” (joint with Matthew Shum)

November 9, 2017
Ludovic Renou, Queen Mary University
“Information Design in Multi-Stage Games”

November 23, 2017
Dominik Karos, Maastricht University
“An Epistemic Approach to Information Diffusion in Social Networks”

November 30, 2017
Panayotis Mertikopoulos, CNRS
“No-Regret Learning in Games”

Job Market Seminars (9)

January 16, 2017
Christopher Rauh, Cambridge University
“Human Capital Production and Parental Beliefs”

January 17, 2017
Martin Van der Linden, Vanderbilt University
“Bounded Rationality and the Choice of Jury Selection Procedures”

January 19, 2017
Jordan Rouleau-Pasdeloup, University of Lausanne
“The Government Spending Multiplier in a Deep Recession”

January 23, 2017
Andrea Ariu, University of Geneva
“Providing Services to Boost Goods Exports: Theory and Evidence”

January 26, 2017
Sarah Flèche, London School of Economics
“Teacher Quality, Test Scores and Non-Cognitive Skills: Evidence from Primary School Teachers in the UK”

January 30, 2017
Niall Hugues, University of Warwick
“How Transparency Kills Information Aggregation: Theory and Experiment”

January 31, 2017
Andrea Canidio, INSEAD
“Benevolent Mediation in the Shadow of Conflict” (joint with Joan Esteban)
February 2, 2017
Jan Christoph Schlegel, University of Lausanne
“Virtual Demand and Stable Mechanisms”

February 22, 2017
Stéphane Dupraz, Columbia University
“A Kinked-Demand Theory of Price Rigidity”

Market-Markets (6)

January 6, 2017
« Modèles et réalités empiriques »

February 3, 2017
« Comment étudier les choix des individus ? »

March 3, 2017
Frédéric Aprahamian, University of Toulon, Amse, Greqam
« Les sciences économiques sont-elles performatives ? »

April 28, 2017
« Crises économiques et cadres d’analyse »

May 19, 2017
Francesca Sirna, University of Nice Sophia Antipolis
« Marché du travail et migrations professionnelles »

June 16, 2017

“Marketcraft: What Does It Really Take to Make Markets Work?”

New Perspectives on Education, Learning and Wellbeing (2)

January 13, 2017
Miriam Teschl, EHESS, Amse, Greqam
“Multilingualism and Wellbeing”
Birgit Brock-Utne, University of Oslo
“Education in Africa: Decided by whom and in whose Language?”

February 3, 2017
Martha Ferede, Unesco, Sciences Po
“Refugee Education - The Need for a Paradigm Shift in Troubled Times”
Bernhard Babic, University of Salzburg
“Child Wellbeing from the Perspective of the Capability Approach”

PhD Seminars (30)

January 10, 2017
Victor Champonnois
“The Influence of Institutions and Tax Systems on Protest Rates in Stated Preferences Surveys”
João V. Ferreira
“Choice with Time” (joint with Nicolas Gravel)

February 2, 2017
Majda Benzidia
“If I Were a Boy: A Study of Gender Stereotypes at School”
Tanguy Le Fur
“Health, Work and Medical Expenditure: The American Puzzle” (joint with Alain Trannoy)

February 21, 2017
Nicolas Destréé
“Workers’ Remittances and Borrowing Constraints in Recipient Countries”
Laure Thierry de Ville d’Avray
“An Expert Survey on the Ecosystem Services Provided by Coralligenous Habitats” (joint with Dominique Ami, Anne Chenuil, Romain David and Jean-Pierre Féral)

February 28, 2017
Vera Danilina
“Carrot and Stick: Collateral Effects of Green Public Policy” (joint with Federico Trionfetti)
Anwesha Banerjee
“Social Norms and Conformism in Public Good Networks”

March 21, 2017
Ilia Gouaref
“Estimating Non-Take-Up of Social Assistance in France”

March 28, 2017
Morgan Raux
“On Cultural Barriers to Migration: Disentangling Wage Effects from Selection”

April 4, 2017
Solène Masson
“Land Use Regulation and Poverty in the Brazilian Amazon”
Audrey Etienne
“The Public Sector Wage Gap: New Evidence from Panel Administrative Data”

April 11, 2017
Fadia Al Hajj
“Exchange Rate Regimes in Sub-Saharan Africa: A Theoretical and Empirical Model”
Victorien Barbet
“Stability and Representativeness of NPO Networks: The Influence of Communication on Norms” (joint with Noé Guiraud and Juliette Rouchier)
April 18, 2017

Guzmán Ourens, Université Catholique de Louvain
“Uneven Diversification and Divergence”
Thuc Huan Ha, Université Catholique de Louvain
April 25, 2017

Lara Vivian
“Service Economy and Job Polarization: The Case of Germany”

Marie-Christine Apedo-Amah
“Gender, Information and the Efficiency in Households Productive Decisions: An Experiment in Rural Togo” (joint with Habiba Djebbari and Roberta Ziparo)
May 2, 2017

Guillaume A. Khayat
“Heterogeneous Interbank Frictions, Excess Reserves & the Corridor”

Sameera Awawda
“Assessing the Potential Welfare, Macroeconomic Effects and Intergenerational Inequality of Universal Health Coverage”
May 9, 2017

October 3, 2017

Estefania Galvan
“Gender Identity Norms and Labor Market Outcomes” (joint with Cecilia García-Peñalosa)

Océane Pietri
“Distributional Effects of Tax Composition Changes” (joint with Frédéric Dufourt)
October 10, 2017

Laurene Bocognano
“Education Inequality: Parents’ Aspirations Versus Labor Market Returns”

Andrea C. Pérez Useche
“Are Household Formation Processes Assortative?”
(joint with Nicolas Gravel)

October 17, 2017
Victor Champonnois
“On the Plurascity of Cost Benefit Analyses” (joint with Olivier Chanel)

October 31, 2017
Sauman Singh
“A Bitter-Sweet Pill: Learnings from the Development of Synriam”

November 7, 2017
Ulrich Nguemdjo-Kamguem
“Adaptation to Climate Variation and Living Standard: The Effect of Migration on Rural Household Living Standard in Niakhar”
Aissata Boubacar Moumouni
“Research Tax Credit Impact on Corporate Innovation and Export”

November 14, 2017
Khalid Maman Waziri
“A Double Hurdle Stochastic Earnings Frontier Model”

November 21, 2017
Ulises Genis Cuevas
“Adequate Housing Inequality: A Normative Comparison in the Presence of Categorical Data” (joint with Nicolas Gravel)

November 28, 2017
Anwesha Banerjee
“Altruism in Private Provision of a Public Good”
Alberto Prati
“Self-Serving Bias for Temporal Judgments: An Empirical Study using Subjective Well-Being Data”

December 5, 2017
Zainab Khan, Université Catholique de Louvain
“The Effect of Norms on Intensive and Extensive Margin of Fertility and its Implications for Quantity Quality Trade-Off in Pakistan”
Barbara Castillo Rico
“Homeownership in France? Intergenerational Dynamics under Varying Economic Conditions” (joint with Bertrand Garbinti and Frédérique Savignac)
Lisa Kerdelhuë
“Financial Cycle and Sustainable Growth” (joint with Gábor Kátya and Matthieu Lequien)

Statistics and Econometrics Seminars (10)

January 3, 2017
[Seminar of CNRS Applications]
Thomas Muller, Université Catholique de Louvain
“The Temperature of the Brain”
Hélène Couprie, University of Cergy-Pontoise
“Atypical Employment and Prospects of the Youth on the Labor Market in a Crisis Context”

January 10, 2017
Yang Lu, Amse, Grepam
“A Flexible and Tractable State-Space Model with Application to Stochastic Volatility” (joint with Christian Gourieroux)

March 7, 2017
Ulrich Hounyo, CREATES, Aarhus University
“Testing for Heteroscedasticity in Jumpy and Noisy High Frequency Data: A Resampling Approach” (joint with Kim Christensen and Mark Podolskij)

April 4, 2017
Geert Dhaene, KU Leuven
“Profile Score Adjustments for Incidental Parameter Problems” (joint with Koen Jochmans)

May 16, 2017
Giuseppe Storti, University of Salerno
“Modelling and Forecasting Volatility with Adaptive and Mixed Frequency Realized GARCH Models” (joint with Antonio Naimoli)

May 23, 2017
Paola Cerchiello, University of Pavia
“Big Data in Finance: Some Perspectives”

June 27, 2017
Chris Neely, Federal Reserve Bank of St. Louis
“The Role of Jumps in Volatility Spillovers in Foreign Exchange Markets: Meteor Shower and Heat Waves Revisited” (joint with Jérôme Lahaye)

September 19, 2017
Malvina Marchese, Cass Business School
“Whittle Estimation of Multivariate Exponential Volatility Models with Long Memory” (joint with Paolo Zaffaroni)

October 3, 2017
Luc Bauwens, Université Catholique de Louvain
“A New Approach to Volatility Modeling: The High-Dimensional Markov Model” (joint with Maciej Augustyniak and Arnaud Dufays)

December 5, 2017
Nicolas Debarsy, University of Lille 1
“Flexible Dependence Modeling using Convex Combinations of Different Types of Connectivity Structures”
(joint with James P. LeSage) The AMSE lecture series

Globalization lectures (5.1)

- Jérôme Adda, Bocconi University
  "Migrant Wages, Human Capital Accumulation and Return Migration"
  Discussant: Bruno Decreuse, Aix-Marseille University, AMSE

- Donald Davis, Columbia University
  "The Comparative Advantage of Cities"
  Discussant: Federico Trionfetti, Aix-Marseille University, AMSE

- Jess Benhabib, University of New-York
  "Adverse Selection and Self-fulfilling Business Cycles"
  Discussant: Alain Venditti, CNRS, AMSE
